STATE OF WAR VIRTUALLY EXISTS BETWEEN ITALY AND HER FORMER ALLIES: OTHER POWERS MAY JOIN

Austrians Strengthen Frontier Posts—Navigation in Adriatic Suspended.

AUSTRIA SURROUNDED

Serbia's Army Reconstructed and Well Armed Marching Toward Border.

Roumania, Greece and Bulgaria Are Wavering.

London, May 21.—A state of war now virtually exists between Italy and her former allies, Austria and Germany, although there has been no formal declaration.

The Austrians are strengthening their frontier posts and all navigation services in the Adriatic have been suspended—indications that the clash is not far off. The Italian senate today endorsed the chamber's action in granting the government extraordinary powers in the event of war, for which the whole country appears to be enthusiastic.

Serbian Army Active.

Simultaneously with the anticipated entrance of Italy, Serbia's re-constructed army has fully recovered from the campaigns which resulted in the Austrians being driven from Serbia, and well armed and equipped, it is announced, has commenced a march toward the Austrian border bent on another invasion of Austrian territory.

Thus Austria is being attacked from all sides and has still another enemy, Roumania, in prospect, for it has been an open secret for a long time that Italy and Roumania have an agreement to act in concert. Roumania, however, is awaiting the conclusion of an agreement with Greece and Bulgaria, which also are expected to join the Allies before she takes up arms.

These anticipations explain the tremendous efforts that Austria and Germany are making to complete the defeat of the Russians, who, forced out of Western Galicia and the Carpathians, are offering stubborn resistance behind the San river and around Przemysl and the Austrians who have advanced to the southeast of that town appear to have been halted as today's report from Berlin does not claim any further progress.

Just to the north, in Poland, the Russians are carrying on a strong offensive, and driving the Germans back, have partly exhausted the German flank in Galicia. However, after the way they have been driven back and the heavy artillery bombardment they have had to undergo, the Russians must take time to regain the initiative.

Since foggy weather has stopped battles in the West the Allies have confined themselves to attempts to improve and organize the positions gained, and in this they claim to have been successful, although the Germans state that all the Allies' attacks have been repulsed.

Unofficial Athens dispatches continue to report successes for the Allies in the Dardanelles, but official quarters remain silent—an attitude which meets with some criticism.

SENATE PASSED BILL.

Wild Enthusiasm in Chamber of Senate When Measure Is Adopted.

Rome, via Paris, May 21.—The Italian senate today by a vote of 262 to 2 passed Premier Salandra's bill granting plenary powers to the government in dealing with the situation that has arisen through the inability of Italy and Austria to reach an agreement concerning Italy's demands.

When the vote, which virtually assures Italy's entry into the war, was announced, there was a great demonstration of enthusiasm inside the senate chamber, shouts of "Long live Italy," intermingled with the cheering and handclapping of the senators, ministers, army and navy officers and the people in the galleries. King Victor Emmanuel and members of the royal household witnessed the demonstrations.

Prince Colonna, mayor of Rome, had been chosen to present the bill to the senate and his speech was frequently interrupted by applause. The mayor said he was proud to address the senate on any occasion so momentus for the country and for civilization. In the name of the people, he asked the king and the parliament of the country to make a just war in order to deliver their oppressed brothers.

The bill was referred to a committee. Meanwhile the senate took a recess. When the senate again convened the committee reported the bill favorably and it passed almost unanimously.

MOVEMENTS ARE GUARDED.

But It is Known That Large Force of Italians Are Encamped on Sea.

Italian Frontier, via Chiasso and Paris, May 21.—The Italian military authorities are guarding with strictest secrecy the movement of troops. It is known, nevertheless, that some 350,-

Important Figures in the Italian Situation.

The attempt of the Italian royal party to get rid of Premier Salandre in order to avert the threatened war with Austria (and it is presumed with Germany and Italy) was a boomerang. Within forty-eight hours after Premier Salandre had resigned and Marcora, president of the lower house of the Italian parliament, had been chosen to form a new cabinet, there was a right about face. Salandre was recalled through the demonstrations of the people in all parts of the country. At once the situation as to the war became graver, and it was considered that Italy would go in.

ROCKEFELLER AND CHAIRMAN WALSH IN NUMEROUS CLASHES

Members of Industrial Commission Protest Against Hostile Attitude.

Washington, May 21.—Frequent sharp clashes between John D. Rockefeller, Jr., and Chairman Walsh marked today's session of the Industrial Relations Commission with Rockefeller again on the stand testifying about conditions in the Colorado coal fields. Although two members of the commission had protested against what they regarded as the hostile attitude of the chairman yesterday, Walsh throughout the day put the witness through a grilling examination time after time, at times riling him to expressions of resentment.

Rockefeller demanded that he be accorded rights given other witnesses and firmly insisted that Chairman Walsh was seeking to inject into his questions implications against the Colorado Fuel & Iron Company and its officers. Some questions he declined to answer as improper and others he characterized as useless.

Rockefeller will be on the stand again tomorrow.

Object to Attitude.

Before the session began the commission held an executive session at the instance of Commissioner Weinstock and Mrs. J. Borden Harriman, who informed Chairman Walsh that they believed the attitude he assumed yesterday toward Rockefeller had the appearance of hostility. Walsh said he had no intention of displaying hostility. But that he was unusually interested in affairs connected with the Colorado strike and naturally could not restrain a tendency to conduct the examination vigorously. He informed his colleagues, however, that he was determined to conduct the examination as he saw fit. Later in the opening hearing, the chairman emphatically told Rockefeller he was running the examination and did not propose to be dictated to by the witness.

Mr. Rockefeller arrived at the hearing room with a prepared statement based on disclosure yesterday that one of the jurors who convicted John R. Lawson, a member of the executive committee of the United Mine Workers of America, of murder, had exclusive sales privileges in the Colorado Fuel and Iron Company's camp. Mr. Walsh had appealed to the witness to intercede for Lawson and get him a new trial.

Would Not Attempt It.

"Were I either directly or indirectly to attempt to influence the judiciary of Colorado in respects to the appeal of Mr. Lawson's trial," said the statement, "I should be guilty of the very procedure against which witnesses before this commission have so strongly protested and which I myself have not less strongly condemned."

The questioning today covered a wide range of subjects, strike violence, political influence and correspondence relating to the strike. As to violence Rockefeller said where constituted authority failed to protect life and property the citizen was justified in using

THE PRESIDENT HAS ANOTHER GRANDCHILD

Daughter Born to Mr. and Mrs. McAdoo Last Night.

Baby Girl Will Be Christened Ellen Wilson After Late Wife of the President—Mrs. McAdoo is Youngest Daughter.

Washington, May 21.—A baby girl, the second grandchild of President Wilson, was born tonight to Secretary and Mrs. William G. McAdoo. She will be christened Ellen Wilson for the late Mrs. Wilson.

The Secretary and Mrs. McAdoo, who is the President's youngest daughter, were married at the White House just a year ago. Mr. McAdoo went to his office at the Treasury Department for the first time since he was operated on for appendicitis nearly two months ago.

The President was at the McAdoo home when his granddaughter was born.

"AGRICULTURAL DAY" WITH COMMERCIAL SECRETARIES

W. P. G. Harding, Slated to Speak, Unable to Attend—Lady Makes Address.

Montgomery, Ala., May 21.—Today was "Agricultural Day" of the annual convention of the Southern Commercial Secretaries Association. W. P. G. Harding, member of the Federal Reserve Board, was to have spoken, but was prevented from attending on account of important affairs at Washington. Mrs. Thomas M. Owen, secretary of the Alabama diversification committee of Montgomery assumed his subject "Financing the Farmer' and told how widespread the rural credits agitation was becoming. Dr. Clarence C. Owens, managing director of the Southern Commercial Congress stressed the importance of diversified crops. The convention will elect officers and chose a place for the 1916 meeting tomorrow.

FROM THE ROYAL HOUSE

Several Italian Princes Ask Permission to Go to the Front.

Paris, May 21.—A dispatch from Rome says that Prince Victor, head of the house of Bonaparte; Prince Louis Napoleon, his brother, and Prince Alfonso of Portugal, brother of the late king Carlos, have applied to the Italian war ministry for permission to join the army.

Prince Victor and Prince Louis Napoleon are grand nephews of Napoleon 1. Their mother was Marie-Clotilda, a princess of Savoy, the reigning house of Italy.

MUCH WORK AHEAD OF THE ASSEMBLY

Many Overtures from Presbyteries and Synods Read.

LARGE CROWDS ATTEND

General Assembly of the Southern Presbyterian Church in Session at Newport News Hears Many Good Reports.

Newport News, Va., May 21.—A "symposium on evangelism," presided over by Rev. F. T. McFadden, D. D., of Richmond, Va., including devotional and song services and four popular addresses on different phases of evangelistic work, occupied the time of the General Assembly of the Southern Presbyterian church tonight.

The meeting was open to the public and the largest crowd of the assembly was in attendance.

The commissioners spent the afternon at Hampton and Old Point where they visited the Hampton Normal and Agricultural Institute, the National Soldiers' Home, Fort Monroe and other points of interest. The assembly went in a body on special cars following adjournment of the morning session at 12:45.

The morning session was featured by the reading of the report on evangelism by Rev. W. H. Miley, of Atlanta, Ga., superintendent of this department of the assembly's work, the appointment of standing committees, the receiving and referring to proper committees of 74 overtures from the various Presbyteries; the report of the committee on reformation day and a formal protest from the Transylvania Presbytery of Kentucky against the attitude of the General Assembly on the question of national prohibition.

Dr. Miley Makes Report.

Dr. Miley's report on evangelism showed remarkable progress made during the past year. Among the striking statistics which he presented were the following:

"In the year just closed 20,158 persons were received into the church on professions of faith, as compared with 16,149 during the previous year; the average number of visits to one unsaved person required during the year was 16 1-2, as against 20 the year before; 1,375 churches, or 40 per cent. of the membership of the assembly reported no converts during the year, whereas 1,512 or 44 per cent. made the same report at the previous assembly."

The report was warmly received and Dr. Miley's address on "the assembly's evangelistic programme" was heard with marked interest.

A number of the overtures submitted to the assembly today are expected to precipitate extended discussions when they are reported out of the committees. Among the principal matters brought to the attention of the assembly in this manner were:

Reasons for and against the organization of the proposed Appalachian synod.

To devise some means whereby the funds of the church subject to investment may be open to all the churches as a loan fund.

Rural Church Assembly.

Asking the assembly to designate the next assembly as the Rural Church Assembly.

Asking the assembly to record the action of the synod of Virginia opposing the action of the 1914 assembly touching the amendment of the Federal constitution.

The appointment of an ad interim committee to make a thorough revision of the book of church order.

Asking the assembly to affirm its belief as to the teachings of the Scriptures in regard to women speaking or praying in public or in mixed religious assemblies.

To consider consolidation of the publication work with other Presbyterian bodies with a view to pushing more vigorously Sunday school work.

Relating to the home and school at Fredericksburg, Va.

Protest against any retrenchment in the work of the foreign mission commissions.

Concerning the relation between the Presbyterian church in the United States of America in the South.

The committee on Reformation Day recommended that a "Huss service" in commemoration of John Huss, 500th anniversary of whose martyrdom will be July 6 be held by each pastor at his convenience on a Sunday near to July 6 and that the assembly authorized the celebration of Reformation Day this year on Sunday, July 4, instead of the last Sunday in October and appoint as the subject for that occasion "Huss and the Hussites."

The protest from the Transylvania Presbytery against the assembly's advocacy of national prohibition is expected to precipitate the most heated debate of the assembly. It is held in the protest that the General Assembly under the constitution has no right to deal in political questions further than to advise or petition and that it is strictly prohibited from advocating any political issue. The protest also pointed out that in 1911, when a resolution was offered from the Transylvania Presbytery asking the assembly to go on record as favoring national prohibition it was thrown out as not in keeping with the constitution.

The action of the assembly favoring national prohibition was recorded at the 1914 session when a number of commissioners presented a signed protest. This number backed by the Transylvania delegation and others who are said to oppose the assembly's action are expected to wage a hot fight for repeal of the resolution when the matter is reported out of committee.

Delegates to the assembly will attend the launching of the New York and Porto Rican freight steamer Mariana at the shipyard tomorrow afternoon. The launching is private in honor of the memory of A. L. Hopkins,

RIGGS CASE TAKEN UNDER ADVISEMENT

Justice McCoy Promises Decision Before July 1st.

WHAT COURT CONSIDERS

Record as Made Up Shows Bank Dealt With Stock Brokers, Whether Deals Were for Officers of Bank or Not.

Washington, May 21.—At the conclusion of five days of argument, Justice McCoy, of the District Supreme court took under advisement today a motion to dismiss the suit brought by the Riggs National bank to enjoin Secretary McAdoo, Comptroller of the Currency Williams, and Treasurer Burke from alleged unlawful persecution of the bank.

The court denied relief sought by the plaintiff pending litigation, except as to the payment into the Treasury of $5,000 due to the bank and withheld to cover penalties imposed by the Comptroller for failure to furnish certain reports. A temporary restraining order against payment of this money into the Treasury was granted at the outset of the proceedings and the court later will pass upon the questions of continuing it.

Justice McCoy indicated that he would be some time considering the case but would endeavor to dispose of it before July 1.

In denying the prayer for an injunction pending littigation the justice said that without considering what evidence might hereafter be presented there was nothing in the record before him now to show the government officials had exercised arbitrary power or power arbitrarily in regard to the refusal to select the Riggs bank as a reserve agency.

Did What Was Right.

"It seems to me on the record as it stands that the government officials would be remiss in their duty in selecting it as an agent for new applicant banks," said the justice. "The evidence here is of persistent violations of the law."

The court also considered on the record as now made up the charge that Secretary McAdoo showed malice in an interview with Riggs bank officials. The justice said it appeared to him that the malice was rather on the other side.

At the opening of the day's session, Samuel Untermeyer of government counsel presented a bookkeeper's affidavit that there were 6,000 stocks transactions shown on the books of Lewis Johnson & Co., stock brokers, in the name of the Riggs bank.

Untermyer, who made the concerning argument for the government after former Senator Bailey had closed for the bank, declared that it appeared that two officers of the bank were getting personal benedt from such transactions for which the Riggs bank furnished the seaurity.

"Do you know," asked Justice McCoy, "whether there is anything to show that Johnson & Co., if the market had gone wrong, could have proven anybody responsible but the bank, leaving out the question of whether the bank could have required reimbursement from a third party?"

The attorney declared the stock brokers could have recovered only from the bank.

"I think that the record, as now made up," commented the court, "shows that the Riggs bank was dealing with Lewis, Johnson & Co. in a legal sense, whatever interests may have been behind the dealing."

"Yes, and to say that such a scandalous is to express it mildly," added Untermyer.

SYRACUSE JURY IS STILL DEADLOCKED

Locked Up Shortly After 11 O'clock for the Night.

CONDITIONAL VERDICT

Judge Refused to Receive Verdict for the Former President Brought in During the Morning—One Juror Determined.

Syracuse, N. Y., May 21.—The jury in the trial of William Barnes' suit for libel against Theodore Roosevelt was still deadlocked tonight, after once having returned a conditional verdict for the former President, which Supreme Court Justice William S. Andrews refused to receive. The jury was locked up for the night in the jail dormitory shortly after 11 o'clock.

The condition which made the verdict an improper one was that the trifling court costs and disbursements should be devised between the principals in the action.

That the jury would be held over until Monday, should it fail to find a proper verdict by tomorrow, was considered improbable by attorneys.

The deadlock was brought about by Juror No. 11, Edwards Burns, a syracuse motor man, and a Republican, announcing that if the costs and disbursements were not divided he favored a verdict for the plaintiff.

Tonight after the proposal of putting the costs on one of the principals had been under consideration for more than ten hours, no word had come from the jury to indicate it stood otherwise than when it was sent back to its room.

Peculiar Situation.

The jury was in court twice today. As Justice Andrews opened court he received a note from the jurors informing him that a "peculiar situation had arisen," and asking that he confer with them in the jury room. The justice had the jury brought into court and informed them that anything he could rightly do to aid them in reaching a decision must be done in open court. The jurors then requested that they be allowed to return to their room for further deliberation.

Nearly an hour afterward word came from the jury room that an agreement had been reached. In open court the foreman announced almost in a whisper that a verdict had been found for the defendant.

The spectators started for the exits. Then the foreman went on to say that the verdict was for the defendant on the condition that he pay half and the plaintiff pay half the costs.

Justice Andrews declared the verdict improper. The foreman suggested a poll. It was taken and juror No. 11 said emphatically "I find for the plaintiff."

"Gentlemen," said Justice Andrews, "you must go back to your room and stay there until you have agreed upon a proper verdict."

At 5 o'clock court was adjourned until 10 o'clock tomorrow.

The jurymen were informed that should they reach a verdict before 11 o'clock they could seal it and turn it over to a court attendant. Should they fail to agree, they would be locked up for the night.

Juror No. 11 sent a messenger to his home with a note reading, it was said, that he would not be home before tomorrow.

Washington, May 21.—Two forest fires are burning at the north end of Tongass National Forest, Alaska, threatening to destroy the homes of settlers and menacing a heavy stand of government timber, according to a telegram today to the forest service.

FOREIGN EXCHANGE MARKETS MOVE IN FAVOR OF AMERICA

And Point to Its Increasing Importance as a World Center of Finance—All Foreign Demand Bills Decline, Some Lower Than Ever Before in Memory of Brokers.

New York, May 21.—Bankers with international connections were concerned today with the course of the foreign exchange markets, all of which, with the possible exception of that of Germany, continued to move in favor of this country and point to its increasing importance as a world center of finance.

Demand bills on London declined to 4.78, which is not only far below the usual rate at which gold can be imported from England, but establishes the minimum quotation for that form of remittance since the panic of 1873, when our bankers were resorting to every device because of home necessities to obtain gold from abroad.

Francs and lires also went to lowest prices recorded since the outbreak of the war and so far as could be learned today's rates for remittances to Paris and Rome have not been equalled in a generation.

Reichmarks, or exchange on Germany were steady with moderate transactions, ratse on all other continents weak. Cables from Paris reported a quotation for French exchange on London.

There is no way of computing the amount of bills of exchange held by American bankers against purchases here by the leading countries of Europe, mainy of war supplies, foodstuffs and textiles, but the figure runs into hundreds of millions of dollars. It is partly the pressure of these bills for sale by American holders which has brought about the present unparalleled situation.

Sales of American securities here for foreign account and receipt of more gold from Canada and France have relieved conditions only in part, but students of the situation declare that real relief can only come from the placing of further large credits in this market or the release of virtually all the gold now held at Ottawa and its re-transfer to this country. The currency of all European countries is now selling at greatly deprecited values in this market and further debasement, it is believed, will force these countries to take refuge in double monetary standards—one rate for gold and another for paper. For all practical purposes such a condition already exists, inasmuch as gold is at a premium in all the money markets in the Eastern Hemisphere.

It was expected that the recent return of J. P. Morgan from London would be signalled by the establishment of another large British credit, but thus far no step in this direction has been reported. Transfer of a large amount of gold from France to England has had a tendency to ease credits between those countries. England has advanced large sums of money for both France and Russia. Depreciation of the Russian ruble to a discount of 21 per cent has been one of the significant features of the local market for exchange.

ENGLAND ASSUMES TOO MUCH STATES SECRETARY BRYAN

United States Has Not Agreed to Any Arrangement Made About Cargoes.

AND AMERICAN VESSELS

Representatives of Department Assisted Cotton Interests Unofficially.

Washington, May 21.—President Wilson and his Cabinet met today for the first time since they gathered ten days ago and approved the note which the United States substantially sent to Germany as a protest against the sinking of the Lusitania with the loss of more than 100 American lives.

In the absence of any definite news from Berlin, there was no discussion, it was understood, of the probable contents of Germany's reply.

When the Cabinet met there had been published here a British foreign memorandum saying the arrangements being made by Great Britain with American cotton interests for disposition of their cargoes were understood to be acceptable to the United States. Later, Secretary Bryan gave out a statement declaring that whatever had been done by State Departmnt representatives to assist the cotton interests had been of an unofficial character and was not to "be construed as a recognition of the order in council" issued by Great Britain.

Also Ambassador's Idea.

Sir Cecil Spring-Rice, the British ambassador, issued a statement tonight explaining that this also was his understanding. The United States has received no reply to its note of March 30, in which the British order in council was declared to be a violation of international law.

In view of continued detention of American cargoes a further protest was prepared a week before the Lusitania disaster to be sent as soon as further data on interference with American shipping could be obtained. In some official quarters it has been urged that the note be dispatched now because of the conviction it might convey to Germany of the purpose of the United States to obtain an adherence to international law by the Allies.

There was brief discussion of the subject today by officials and President Wilson said the situation with Germany ought not to be complicated by any correspondence with Great Britain and it is certain the note will not be issued until after the German reply is received.

That the United States is prepared to controvert further the right of Great Britain to enforce virtually a blockade against neutral countries, detaining cargoes of non-contraband, was the intimation conveyed by Secretary Bryan's statement regarding the British foreign office memorandum.

Secretary Bryan's Statement.

Secretary Bryan's statement follows:

"The foreign trade advisers attention has been called to the statement of the foreign office of Great Britain published in this morning's papers, an extract from which follows:

"'Fourth. In accepting this scheme, which it may be noted applies to shipments of cotton for a neutral desitnation only, the principal representative of the American cotton interests described it to his majesty's ambassador at Washington as conceding all that the American interests could properly ask. It never was suggested that vessels or cargoes with an enemy destination should be allowed to proceed. His majesty's government were moreover given to understand that the provisions of the arrangements were acceptable to the United States government.'

"The plan referred to is the one which was entered into between cotton shippers of this country and the British embassy, a portion of which is quoted in the statement of the British foreign office.

Was Definitely Understood.

"Without discussing at this time the statement that 'it was never suggested that vessels or cargoes with an enemy destination should be allowed to proceed' the foreign trade advisers, who informally and unofficially represented the cotton shippers in the negotiations which led up to the so-called cotton arrangement, state that it was definitely understood between Sir Cecil Arthur Spring-Rice, the British ambassador at Washington, and Robert F. Rose, the foreign trade adviser, conditioning this discussion on behalf of the American cotton exporters that nothing done by the foreign trade advisers should be regarded as official and that everything done was to be considered as informal and unofficial and in no way binding the United States government to any arrangement reached, or be construed as recognition of the order in council to be issued or the declaration of March 1st which had been issued.

Statement Oft Repeated.

"This statement was made to the British ambassador on March 3, when the first conference on the matter was held, was repeated on each subsequent conference, and each time the absolute assurance from the British ambassador was received that in acting for the cotton shippers in any way the foreign trade advisers were to be regarded as not representing the United States government in any manner.

"The American embassy at London cabled to the State Department today that it had on record, covering the entire period since war began, the names of 33 ships carrying cargoes of American cotton which have been detained

WILMINGTON ALL-STARS SUCCUMB BEFORE BURGAW.

Former Team Defeated Seven to Six by Burgaw Players Yesterday.

In a fast and snappy game at Burgaw yesterday afternoon Burgaw defeated the Wilmington All-Stars by the close score of seven to six. Harry Shaw, score of seven to six. Harry struck out 12 men and allowed but two hits. Cooper, on the mound for the Burgay boys, was hit freely, but displayed excellent headwork and several times pulled himself out of the hole. Poor base running by the All-Stars was very apparent.

The score was tied in the last half of the ninth inning with the Burgaw boys at bat, two men down and two strikes on the batter, but solving Shaw's delivery that gentleman instead of striking out drove a stiff line ball to Boswell on second who lost a chance to make a sensational onehanded catch when he muffed it. A wild throw to third, coupled with the error, allowed a Burgaw runner, originally on second, to score and the game was over.

JOE BIRMINGHAM RESIGNS.

As Manager of the Cleveland American Baseball Club.

Cleveland, May 21.—Joe Birmingham resigned today as manager of the Cleveland Americans. President Somers, of the club, announced the resignation had been requested and that no successor had been named.

Birmingham succeeded Harry Davis as manager in 1912. He had played in a Cleveland uniform as an outfielder since 1906.

The team's poor showing last year and so far this season, is said to have led to his retirement.

President Somers said that Lee Fohl, coach of the team, would have charge of it temporarily.

Indianapolis, May 21.—Ralph De Palma, favorite in the 500-mile automobile race to be held here May 29th, was the first to qualify for the contest today when he circled the speedway at an average speed of 98.2 miles an hour. A speed of 80 miles is required to qualify for the race. His time today was only two seconds under the record for the course, made last year by George Berliot. Others who qualified today are Barney Oldfield, Tom Orr and Eddie Rickenbacher.

THEATRICAL

Opening the bill at the Grand today is a Keystone comedy "Ambrose's Little Hatchet," in which Max Swain has the star part. This comedy is full of action and will rank with the best of the one-reel Keystones.

The very boldness of Jordan's plot would have made for its success, but for the ingenuity of Jean the heroine of "The Voice from the Taxi," the newest episode of the Kalem Girl Detective series. Jordan kidnapped Emily Wharton, his ward, and then compelled to make over to him the bulk of her property, but the girl detective became aware of the scheme and promptly set about to frustrate it. How she succeeded is stirringly told in this episode showing today. The Lubin drama, "The Accusing Hen," is a snappy story of the west. Webster Campbell is a very likeable hero and Dolly Larkin is a heroine well worth winning.

At the Victoria.

The Victoria is presenting today a truly wonderful production, "The Outlaw's Revenge," the fifth of the series of Mutual Master pictures and the producer of this feature in explaining how he came to produce it says:

"Just about a year ago, I went to Mexico to see General Villa about the moving pictures of the Mexican war, at which all the world marvelled. Some of the best camera men and two of the greatest directors in the United States were with me. Quite accidentally we stumbled upon a tragic story of Villa's own early life. Of how, in seeking revenge for the death of his two unprotected sisters, at the hands of officers of the Mexican army, he was thrown into prison—escaped with the aid of an Indian half-breed whom he had earlier befriended, became an outlaw,—and,—finally was made chief of the band that formed the nucleus of the Mexican rebel army.

"Here was a tremendous epic of real life—a theme big with every human emotion—ready to hand. Here was almost the very sense of the tragedy; here were thousands of restless Mexicans—as there had been when only a few years before Villa was living the story we had just heard. Then the telegraph wires began to hum. Well-known actors and actresses came—learned the story—lived the life—and then re-lived the story before the camera.

"The result is a wonderful picture—doubly intense because of its reality. The battle scenes are tremendous; hundreds of the actors in them were actual Mexican soldiers—members of the old rebel band. A few scenes are pictures of real battles 'cut' into the story."

At the Bijou Today.

A heart throb two-reel Rex drama, a strong, strange, story, full of real heart throbs, is "Rene Haggard Journeys On," featuring Dorothy Phillips and Ben Wilson, which heads today's great week-end bill at the home of "The Incomparable Movies." Rene, protecting her sister from a villain, kills him, is tried and convicted but at the last moment is pardoned. The rest of the story shows, however, in strikingly dramatic form, that he really need never have been convicted at all. Do not fail to see this if you appreciate Ben Wilson's really artistic presentations of the deepest emotions of the human mind.

Then there's aonther notable offering today. That celebrated stage comedian Billy Reeves was engaged by the Universal, especially to star in one picture, and it is on today. It is "Counting Out the Count" with Billy as the count, and is one of the greatest comedy productions you've ever seen.

Then there's a rousing United Comedy, "A Wife's Way," featuring Dot Farley in the leading role.

GRIMBALL AND BOND TO COMPETE IN FINALS TODAY.

For Amateur Golf Championship of the Carolinas.

Charleston, S. C., May 21.—Louis Grimball and Oliver James Bond, both of Charleston, will compete tomorrow in the finals of the golf tournament for the amateur championship of North and South Carolina. In the semi-finals today Bond defeated F. H. Hyatt, Jr., of Columbia, and Grimball defeated Walter M. Paul, of Charlotte, N. C., who Wednesday won the individual open championship of the Carolinas.

E. P. Prioleau, Jr., of Charleston, won the qualifying round medal. Columbia, S. C., took the team match cup in yesterday's play.

E. F. Mayberry, of Charleston, made the 18th hole in the qualifying round in one stroke.

Charlotte was selected as the place for the 1916 tournament. Raleigh in an invitation for the 1918 tournament.

American Ambassadors Are in Great Demand.

The Austrian government asked Secretary Bryan to have the American ambassador to Italy, Thomas Nelson Page, take care of its interest in Rome in case of war, and at the same time the Italian government made a request that Frederick C. Penfield, American ambassador to Austria, care for it in Vienna. These requests, as much as anything transpiring in Europe, led to the belief that both governments had determined on war.

Germany did not, at least at the same time, request American ambassadors to act for it in Italy. American ambassadors are now acting for the Germans in England, France and Russia.

DOINGS AROUND DUNN.

Elective Town Officers Chosen—Mr. Godwin Makes Trip.

(Special Star Correspondence.)

Dunn, N. C., May 21.—The board of city aldermen met this week and elected for recorder Mr. J. F. Wilson, attorney, to succeed Hon. C. J. Smith, who has served as judge for the past two years and made a good recorder, but was not a candidate for re-election. Mr. Chas. L. Guy was named as city prosecuting attorney, and Mr. R. L. Godwin city attorney.

Mr. Paul Hood, son of Mr. D. H. Hood, will go to the Panama Exposition. He will join the Gattis party which will leave on the 7th of June, and return July 8th. They will visit Yellowstone park and other places of interest; go one route and return another.

Mr. H. B. Pope, of Sampson, has four boys, one named for Senator Butler, one for Roosevelt, one for Taft and one for Woodrow Wilson. He brought them up and had photos made, in a group, and left a picture with Mr. G. K. Grantham to be sent to Senator Butler and the Presidents.

Congressman Godwin has returned from the Carolina College commencement and a trip through Robeson and Cumberland counties, and found his fences high and strong and pretty well scotched.

This section has begun a new crop. Right many farmers are growing alfalfa. Among them are Messrs. G. M. Tilghman, W. D. Barnes, J. L. Alphin, P. B. Tart and others. Lots of clover has been sowed and is looking well. Many of the farmers have plowed it in and put tobacco and corn after the clover.

Wilson, N. C., May 21.—Wilson people are proud of their school system and justly so for, with Superintendent Chas. L. Coon in charge, the school ranks with the best in the State. The past year has been the most successful in the history of the town and next week is the closing week.

Washington, May 21.—Secretary McAdoo has decided to recommend the appointment of Captain E. A. Bertholf commander of the coast guard service for the four years' term beginning June 1. The captain was named the head of the revenue cutter service in 1911.

PAPERS OF LONDON ATTACK KITCHENER

Some Even Question Military Genius of the Secretary.

OTHERS DEFEND HIM

Head of the War Department of British Government Accused of Ordering Wrong Kind of Shells for Use at the Front.

London, May 21.—One of the most remarkable features of the ministerial crisis is the sudden outbreak of newspaper attacks on Field Marshal Earl Kitchener, the British secretary of war, who at the outbreak of the war, was the nation's military idol.

The Daily Mail and other newspapers under the same ownership have been most violent in these attacks, even going so far as to call into question the field marshal's military genius. The Daily Mail says:

"It never has been pretended that Kitchener is a soldier in the sense that Field Marshal Sir John French is a soldier. Kitchener is a gatherer of men, and a very fine gatherer, too, but his record in the South African war as a fighting general, apart from his excellent organizing work as chief of staff, was not brilliant.

"Nothing in Kitchener's experience suggests that he has the qualifications required for conducting a European campaign in the field and we can only hope that no such misfortune will befall this nation as that he should be permitted to interfere with the actual strategy of this gigantic war."

Ordered Wrong Shell.

Proceeding to accuse Lord Kitchener of having "ordered the wrong kind of shell," The Daily Mail asserts that "despite repeated warnings that a high explosive shell was required, Lord Kitchener persisted in sending shrapnel such as he used against the Boers, thus causing the deaths of thousands of British soldiers and incidentally bringing about a cabinet crisis.

"It is to be hoped that Kitchener, with proper and necessary assistance, will remain at the war office though when the inevitable compulsory service comes his sphere of usefulness will be greatly diminished."

Other newspapers in a less outspoken manner seek to reduce Lord Kitchener's value to that of a good recruiting officer, so they may excuse him on the ground of being too much occupied in producing recruiting advertisements to attend to the supply of proper ammunition.

What Armies Require.

The Times in an editorial says:

"Our armies in the field require reinforcements and shells of the right kind. Neither has been provided in adequate quantities for the simple reason that Lord Kitchener's orders were given too late.

"Plain warnings were disregarded and the nation was lulled into a false security by misleading official reports with the result that thousands of British lives were sacrificed in an unequal contest.

"The nation will not allow that situation to recur. It must be set right and be set right quickly or the consequences will be swift and startling. The whole trouble arose because Lord Kitchener assumed a burden to which no man could have proved equal."

The Morning Post says:

"The new government will not likely be so foolish as to throw over the man whose presence has held the confidence of the nation and of our fighting forces since the beginning of the war, but will rather seek to support and co-operate with Lord Kitchener and take from his over-burdened shoulders the secondary work of reorganising the country's industrial resources so as to supply the army with adequate supplies and munitions."

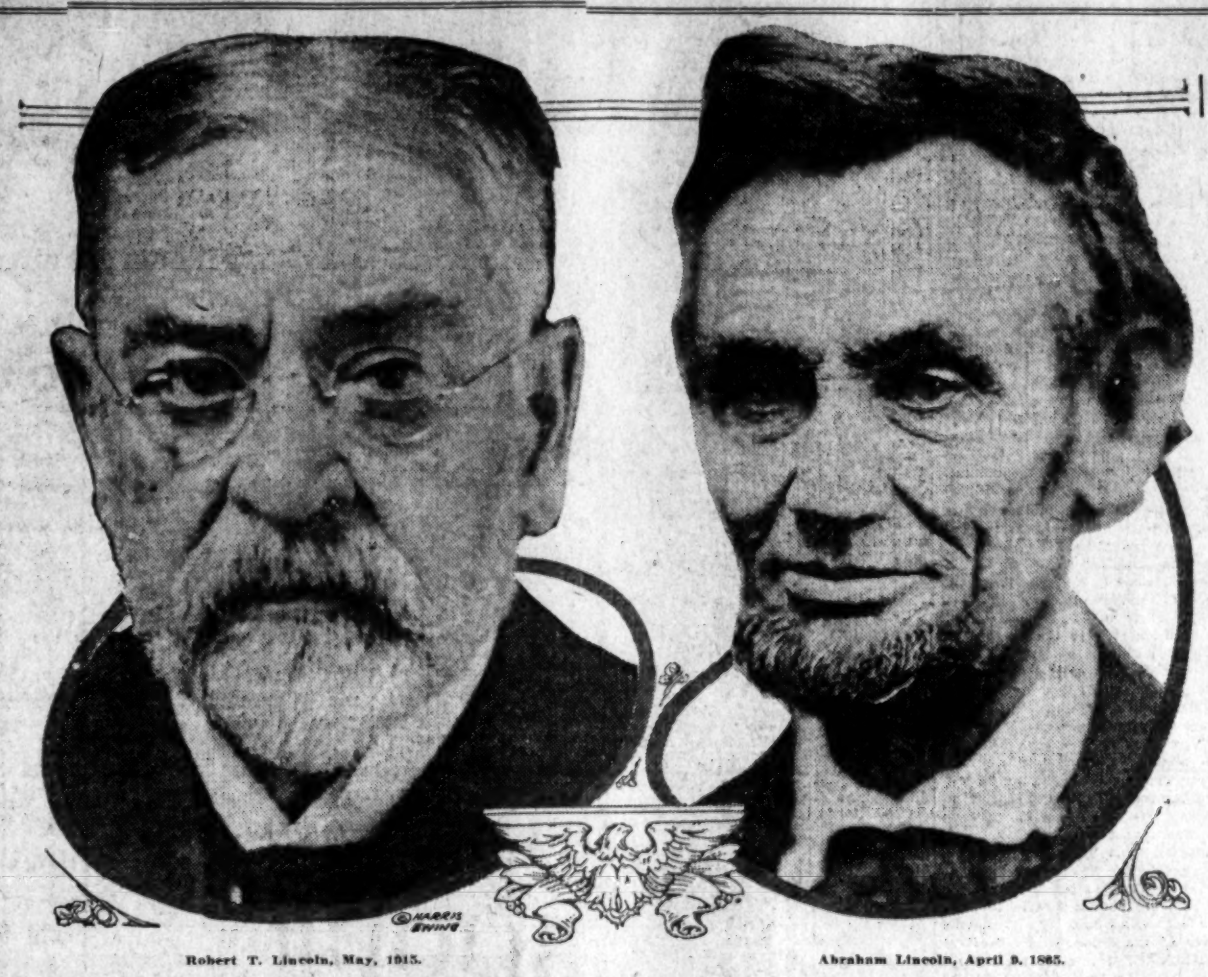
The Daily News protests vigorously against what it terms a press campaign against Lord Kitchener "organized by some of the newspapers who at the beginning of the war forced him upon the country."

The Pall Mall Gazette discussing the "quite astounding newspaper attacks upon Kitchener" says that they have created an "overwhelming sentiment of public indignation and have made the secretary for war, who seemed weaker on Wednesday, more powerful and more popular than ever today."

After referring to the wide prowess possessed by the war secretary in time of war, the Gazette says:

"It is not possible fully to explain how many matters that seem in a fair way of settlement are complicated or jeopardized by the attacks on Kitchener. We fear the result will be an increase in the stringency of regulations imposed on newspapers. * * * If the working of the constitutional machine is made more difficult we shall be very near such a situation as drives democracy in war to a dictatorship. If we are to have a dictatorship Lord Kitchener undoubtedly will be dictator. The country would demand it, and the press would count for nothing."

Abraham Lincoln, Five Days Before Death, Compared With Son Now 72 Years Old



Robert T. Lincoln, May, 1915. Abraham Lincoln, April 9, 1865.

For the first time in many years it has become possible to make a comparison of the features of Abraham Lincoln and his son Robert Todd Lincoln. These photographs show them, the one five days before he was shot to death, and the other when he testified as head of the Pullman company, before the Industrial Relations Commission in Washington, Robert T. Lincoln has not often permitted photographers to take him. Few of them have had such an opportunity as was presented when he appeared before the commission, and they got a clear full view showing every line in his face.

The photograph of Abraham Lincoln, which is reproduced from the original negative, was taken April 9, 1865, by Alexander Gardner. The negative is the only one in existence. The print was obtained from Frederick Hill Meserve, who has the best collection of Lincoln photographs. Mr. Meserve is the highest authority in the world on that subject.

The picture shows Lincoln saddened and aged by the Civil war. The contrast with photos taken two years earlier is startling. In fact, most of the popular pictures of the great liberator show him as he was at least two years before death. But as a matter of record on the photographs there had come over him a most remarkable change.

IF ev'ry man's name described him as well as VELVET'S name describes it, a lot of folks I know would be applyin' to the legislature.

Prominent Britishers in the Cabinet Crisis

Reports of the crisis in the British cabinet have it that Winston Churchill, first lord of the admiralty, whose naval policy has been criticized quietly for a long time, has been compelled to resign, and that Lord Fisher, first sea lord of the admiralty, will take his place. In addition, A. Bonar Law and Sir Arthur Balfour, leader, and second in leadership of the Unionists, will be asked to enter the cabinet that a coalition ministry for the conduct of the war may be formed.

Lord Fisher, who, it is said, has repeatedly disagreed with Churchill, forced the crisis by offering his resignation. Then other disagreements became known. It was even reported that Lord Kitchener would go to the field in charge of the troops, giving place to Lloyd George as war minister. On May 19 Premier Asquith made a statement in the house of commons that no matter what changes took place both he and Foreign Secretary Grey would remain.

FISHING BUSINESS BEGINNING TO BOOM AROUND SOUTHPORT

Assessment of Brunswick Property More Thorough Than Ever.

(Special Star Correspondence.)

Southport, N. C., May 21.—The warm weather is arousing the fishing interests, making work count, for those who are fishing in a practical manner, and this makes money.

There has been unsettled weather for menhaden, plenty of "sign" but making "sets" with the wind blowing half a gale is another matter. Yesterday was a good day for the Elizabeth river factory, its three boats coming in with loads, and there is every sign that this full catch will continue. The company expects to put on three or four more boats.

The first "big shrimp" have been brought in, a small quantity, but showing that there will be large quantities of this crustaceon for the new canning factory of Dosher & St. George, whose factory building is nearing completion. The "shrimpers" are busily at work getting their boats and nets ready. This is a local industry that puts money within the reach of young and old, white and colored.

Jesse W. Lancaster, county assessor, who is making the rounds of Brunswick county, tells your correspondent that there is more planting in the county than ever before, fields long idle have been taken up and crops put in. With seasonable weather, the county will produce the greatest crops in its history.

It may be said, also, that the new assessment now going on in this county is going to get nearer to real assessing than any ever made in Brunswick. Some of the investigations made into previous listing reveal a deplorable lack of something—it is not necessary to employ any terms to depict this something—perhaps it might be said that former assessors were careless—an instance right in this town limits of six acres, upon which the owner has been paying an annual tax of 24 cents, possibly one-twentieth of what would have been a moderate tax.

Yesterday, the little band of Boy Scouts from here, who have been over to Smith's Island for a few days' outing, which meant going through scout duties, returned home, marching through the streets, carrying their camp equipment on their backs.

Six of the boys are regularly registered in New York, and a total of 17 were in camp at Smith's Island. Rev. A. S. Maxwell ,whowaswi ht fg gfgf g A. S. Maxwell, who was with the scouts, said they went through the requirements in good form, a special work being a hike of about 12 miles, and the boys had to carry packs, which they bore without complaint.

SUNDAY SERVICES

Just now, when Education is the main thought of our minds the church services on the Sabbath day should engage our attention as contributors to true education of the whole being, "Body, soul and spirit." This third element in the tripartite nature of man is ministered to in the church agencies and worship to God and training in His service. This should be sufficient reason for attending religious worship in the churches. This is the plea of this notice and invitation to attend the worship in some church every time the opportunity is presented.

THE LATE JUDGE ROAN THOUGHT FRANK INNOCENT

Close Friend Wrote Governor of Georgia in Behalf of Condemned Man.

Atlanta, May 21.—In a letter today to Governor Slaton and the state prison commission urging clemency for Leo M. Frank, Judge A. G. Powell, a former member of the state court of appeals asserted that the late Judge Roan who presided at the trial, often had expressed to him the belief that Frank was innocent of the Mary Phagan murder.

"I was an intimate friend of Judge Roan," Judge Powell's letter stated. "If he were living I would not attempt to speak for him. Since his mouth is closed by death, I feel it is due to him and to Frank that I should give you the benefit of what I know of how he felt as to the defendant's guilt."

At Judge Roan's request, Judge Powell said, he prepared portions of the court's charge to the jury. "I mention this fact," the letter added, "merely to show I had opportunity of intimate knowledge of the state of his (Judge Roan's) mind."

Judge Powell stated he was unable to explain "why Judge Roan with these views did not grant the new trial, which from the conversation with him I fully expected him to grant."

Probably Teddy is afraid some foreign nation will capture the United States and prevent him from having another chance to capture it himself.

Some time ago we predicted several kinds of surprises. They occurred. It is now forecasted that several very astounding occurrences are to take place.

We seem to be very much in a hurry to receive Germany's answer to our note. Probably Germany is so very busy that she can't write, but has to wait till she can send word.

In this country the kind of free speech a man indulges in has often defeated him for an office. "Fool talk," as it is known over in South Carolina, is often mistaken for free speech.

A South Carolinian says he never thought about cattle till he got out into the ranch country in the Far West. He returned home and is making more money on his ranch than is made on the average ranch out West.

Americans who are patriotic enough to advocate a great navy for the United States will receive consideration. The mere naggers, with partisan politics as their only motive, are not worthy of consideration. Such matters as the army and navy are not political in any respect.

"Do you expect to volunteer?" asked one Wilmingtonian of another. "I am not prepared to answer that question at present," the other replied. "I only volunteer when I feel like I have been insulted, but I have made up my mind to be careful how I get into an insulted state."

The enemy stood very stubbornly awhile, but observing that we wanted him to make a stand till our valiant army could capture the enemy troops on the spot, they provoked us very much indeed by entering with hasty despatch into a very large wood where we let them remain.

The rains came and the grass on the lawn is growing very rapidly. It is a singular coincidence that a Wilmington man went out on his back porch one night and fell over something that seemed to be a cross between a safety razor and a sawmill. One part of it hit him on both shins and something like a hand spike hit him on the head. He struck a match to see what it was that jumped on him, and ascertained to his consternation that the lawn mower had come out of winter quarters and was laying for him. He recognized an old enemy at once, shoved it off the porch and called it a jingo and several other things that Uncle Joe Cannon called the Progressives when they caused him to get beaten for Congress.

Congressman Gardner, of Massachusetts, tried to make the American people believe that Secretary Daniels was managing the Navy about like a canoe club is handled. Then President Wilson comes along and strongly endorsed the North Carolina member of the Cabinet. He says Mr. Daniels is right on the job and that the Navy was never more efficient. The people of New York had an opportunity to witness the great naval review a few days ago and they were so proud of it that Gardner must realize that he is a mighty bum critic. When people like Admiral Dewey and President Wilson put their O. K. on Daniels and the Navy, it is time for mere gardeners to stop worrying themselves and trying to worry the country about it.

MEMORIAL TO BISHOP STRANGE

There could be nothing more natural or appropriate for Wilmington to do than to erect a memorial to the late Bishop Robert Strange, as suggested by Mr. John J. Blair in his recent report for the Tree and Park Commission, and again so forcefully advocated in a card by Mr. William Latimer in yesterday's Star. Mr. Latimer really paid a fine tribute to the lamented Dr. Strange, and there is not a soul in Wilmington who does not share the tender and true sentiments he expressed so beautifully concerning that most beloved man of Wilmington.

The reserved land adjoining the United States Marine Hospital recently was donated to Wilmington by the government, and the civic purpose is to make it the largest recreative ground in Wilmington. It will be made one of the city's beauty spots, and certainly no more suitable place could be found for a memorial to the bishop, since there it would be surrounded by children, all of whom Bishop Strange regarded with so much love and tender solicitude. His great heart reached out toward the children and he was ever doing something in their behalf. None of the friends of the playground movement in Wilmington was more earnestly and heartily devoted to that cause than he.

The proposition is to erect a memorial in the recreation grounds and let it be reared by private subscription as a lasting testimonial of Wilmington's love and veneration for the lamented Bishop. We reverently share in the sentiment calling for this memorial, for we are personally sensible of the benefaction and blessing that he was to his home city. All of us not only loved but honored that man of the gentlest graces and purest heart—a Christian minister whose consecration and deep piety were hardly more inspiring than his unaffected geniality, his utter unselfishness and his heart interest in humanity.

To erect a memorial to a man so universally beloved as Bishop Strange would be but renewing in the hearts of all Wilmington people the genuine love they bore that most lovable man, whose kindly greeting and cheering smile all remember as a heritage from the saintly character to whom we would pay tender and sacred tribute.

OUR FOREIGN VISITORS

The Chinese bankers and business men now visiting the United States to look into the opportunities for trade between this country and China will be in Washington next Wednesday. They will go north from Washington and will take in New England cities and other Northern industrial centers. They will then go back West and reach San Francisco June 30. Not a single Southern city is named in their itinerary.

The visiting Chinese are men of intelligence and wealth, and they speak in appreciative terms of the United States. Cheng-Huan-Chang, chairman of the commission, says: "China never needed a friend so badly as she does now, and the only real friend China has in the whole world is the United States." He is nearly 75 years of age and has had financial and business dealings all over China. He is interested in many enterprises, and his wealth is computed at twenty million dollars. He advocates the establishment of several new lines of steamships between China and the United States. The commission consists of 15 prominent Chinese, and all of them spoke as did the chairman.

The vice chairman of the commission, Chi-Che-Nien, who speaks English, pointed out various ways in which the volume of trade between the United States and China might be increased, and urged American business men to co-operate with the Chinese to achieve this result.

"Of all the imports into China from the outside world," said the vice chairman, "that of cotton and manufactured cotton goods is the largest. This reaches the astounding total of $100,000,000 anually. Yet of this amount only about $10,000,000 is sent directly from the United States to China. The remaining $90,000,000 is paid for manufactured goods sent directly from Europe. Great Britain and Japan. We Chinese and you Americans should have direct trade with each other and divide the profit between ourselves. There is no reason whatever for dealing through other nations. It is more and more the modern tendency to travel over the shortest and most direct route in business and China wants to be modern with America."

It is the purpose of the Chinese primarily to study American resources with a view to stimulating trade relations between China and the United States. The South furnishes a large amount of America's ten million dollars' worth of cotton goods exports to China, but in view of the fact that our American exports of cotton goods are only one-tenth of the $100,000,000 of cotton manufactures bought every year by China, mostly from Europe and Japan, there would seem to be great cotton goods trade opportunities there for Southern cotton mills.

More significant in a commercial way is the visit of the South American financiers and business men now in this country. After having spent some days in New York several have arrived in Washington where all will join them in a day or so. They represent all the important republics of South America.

SOUTHEASTERN SANITARY ASSOCIATION

The Southeastern Sanitary Association will hold its third annual meeting next Tuesday and Wednesday in the delightful city of Asheville. This meeting ought to appeal to the people of North Carolina, South Carolina, Georgia and Florida, since it is essentially a movement aimed at making the South come into its own. Its purpose is to promote better health conditions in the South, and when that is accomplished it will add to the other great advantages of this unrivaled section. When we systematically encourage sanitation in our homes and in the city and country by all the approved methods for improving health conditions, we shall be giving the Nation's Garden Spot its greatest boost.

The South is not fully appreciated abroad, and the healthfulness of this rich part of America is not understood, but by increasing the healthfulness of its various sections we will remove one of the objections unreasonably raised against the South. When we establish a health record for our South Atlantic States we will make them more fit for our own people and more desirable for those who would cast their lot with us to aid in developing its great resources.

The Asheville meeting promises to be a highly interesting and important one, and it is hoped that Wilmington will be represented there, since this section holds the sanitation record of the South. The programme will embrace papers on the leading subjects of sanitation in all its bearings. Physicians, sanitary experts and health officers will be heard on the practical work in behalf of health. The two days will be devoted to hearing papers and discussing the subjects thus introduced.

One subject of general interest will be a paper on "The House Fly; Its History and Habits," by Dr. R. M. McCormick, biologist, bacteriologist and chemist, of the Asheville health department. Another will be "What Can Be Done to Educate Milk Consumers?" to be discussed by Dr. Ernest Kelly, in charge of milk investigations, dairy division, Department of Agriculture, Washington, D. C. There will be other subjects discussed, such as "The Negro a Factor in Public Health Work;" "Soda Water Fountains;" "Some Reasons for Typhoid Fever in the Home;" "Rural Sanitation," etc. Col. E. J. Watson, commissioner of agriculture, commerce and industries, Columbia, S. C., will discuss "The Vital Importance of Pure Food in the South," a subject to which we must pay increased attention.

We refer to only a few features to show how important the Asheville meeting of the Southeastern Sanitary Association will be. It was organized May 23, 1915, at Greenville, S. C., and its second meeting was held at Columbia in May, 1914. A general invitation to all the meetings is extended to physicians, health officers, and all laymen concerned in the vital matter of sanitation.

THE FRIENDS OF COTTON AROUSED.

The Atlanta Constitution calls upon the South to protest against the reported purpose of the Postoffice Department to substitute jute mail bags for cotton bags. The Postmaster General is to be called upon and asked to reconsider the use of jute bags and be a friend of cotton, but probably our motives or sentiment would not prove so effective with him as a real good argument as to the superiority and economy of cotton bags for handling the mails. As to that, no doubt the Department's experience enables it to know best.

Nevertheless, we hope the Postmaster General will not put jute ahead of cotton unless he has tried out their comparative durability and economy for the service. That is all he can do, for he would not be justified in spending the people's money for anything but the most suitable bags for government use. He could not afford to use cotton bags merely to please the South, any more than he could use prints to please New England or silk to please New Jersey.

However, we have seen so many durable and superior articles made from cotton that we believe a suitable cotton material can be produced for the purpose of the government. We don't know that the cotton bags in use are the thing, but if they are not made of the most durable textiles, it would be a good idea for some of our cotton mills to turn out a cloth, chemically treated, that will be as good if not better than jute. We have seen cotton twills so treated that they had almost the appearance of leather and it might be that tarred cloth of heavy texture would be ideal for the mail service as well as for shipping purposes generally.

Of course, the Postoffice Department has the people's money in trust and it must spend it for the best it can get without regard to any of our special interests.

The Florida legislature is considering the matter of putting in a state printing plant at Tallahassee. One way the legislature can find out whether it wants to be economical or just extravagant, is to count the jitneys in the pockets of the printers who have been doing the work for the state as well as picking up a little printing so as to keep the shop from being seized by the sheriff.

We are living when the world's greatest history is being made on the battlefields and manufactured into the finished product at the world's capitals.

VIGILANCE COMMITTEE.

To the Editor of The Star:

I notice in today's paper that a gentleman suggests that it would be a practical and sensible thing if a large committee of good men would make occasional and unexpected visits to the red light district.

Well, brother, they are doing that now and if they would just stay away, these unfortunate women would have to go out of business or perish to death.

It is church members and married men that keep those places running, and not as much as you might think poorly paid boys and heather.

A vigilance committee would be great if composed of pure, high minded men and not imported detectives who no one would believe on an oath. They could save many good girls and married women by watching the conduct of those who leave buggies and automobiles standing unoccupied along our county roads, a great distance from any house, both day and night.

This is a serious matter and should be handled carefully. Let him who is without sin throw the first stone.

Thanking you for space,

I am, yours truly,

WM. CROWNSTREAM.

NORTH CAROLINA.

Compiled From United States Census Reports.

(With compliments of W. H. Manss, V. P. & G. M., Southern Settlement and Development Organization.)

Do you know—

That the population of North Carolina is 2,206,287, an increase in 10 years of 16.5 per cent?

That 536,956 people live in cities, towns and villages?

That the actual agricultural population is 1,669,331?

That the total land area of the State of North Carolina is 31,193,600 acres?

That the total amount of acres in farms is 22,439,129?

That the total number of acres cultivated is 5,737,000?

That the percentage of total land area cultivated is only 18.39 per cent?

That the average value of land per acre is $15,29?

That the average net return per acre of cultivated land is $18.53?

That the percentage of return (net) of cultivated land compared with the average value per acre is 121.1 per cent?

That the percentage of farms operated by owners is 57.3 per cent and by tenants is 42.3 per cent?

That the value of cultivated crops for the State is $127,822,000?

That the farmers of the State of North Carolina annually spend $21,483,000.00 for labor and fertilizer?

That of this sum 57.08 per cent is for fertilizer and 42.92 per cent is for labor?

Do you know—

That the land area of the State of North Carolina is 31,193,600 acres?

That the number of acres cultivated and producing crops is 5,737,000, leaving uncultivated 25,456,600 acres; allowing for pasturage, 5,000,000 acres, there remains unused 20,458,000 acres, alowing for hills and swamps 12,000,000 acres; unused acreage for farmers 8,456,600 acres?

That 8,456,600 acres divided into 80 acre tracts would care for 105,632 farmers?

That Ex-Secretary Wilson is quoted as saying that every farmer is worth $1,500.00 annually to the nation?

That based on this valuation 105,632 additional farmers would increase the wealth of the State of North Carolina by $158,448,000.00 annually which is six per cent interest on $2,640,800,000.00?

That with the added population of 528,160 (or five to a family) there would be added an additional per capita wealth for North Carolina of $57,95?

That by assuming there are five persons to a family, or one-fifth of the total population as heads of families, this would mean an average wealth to each family of the State of North Carolina of $289.75? And again assuming that one person out of every family of five in New York is a wage-earner and that the average wage in New York is $565.00, by adding $289.75 to the average wealth of each North Carolina family it would mean that the wealth so added is only $275.25 less than the average annual wage earned by the wage-earners of the city of New York, without any particular individual effort, save a state-wide campaign to locate 105,632 farmers on North Carolina's unused acreage?

CURRENT COMMENT.

A Wilmington man, refusing to allow his name to be known in connection with the gift, contributes $1,000 for playground equipment for two of the city's fine public schools. There is a practical philanthropist and a patriot with horse sense.—Greensboro News.

A public-spirited citizen of Wilmington, who declines to let the papers print his name, has given a check for $1,000 with which to secure a playgrounds equipment for two of the public schools of that city. The Observer is willing to comply with the same condition on part of one or more public-spirited citizens of Charlotte in aid of a similar cause.—Charlotte Observer.

Fine cattle are becoming as common in the country surrounding Rock Hill as they are in what are known as the great cattle growing States. Time is required to accomplish results on the farms, but as rapidly as possible results are being achieved which will make York county a section where diversified farming and cattle raising are regarded as being fully as important as the production of cotton.—Rock Hill (S. C.) Herald.

The proposed deepening and rendering navigable Neuse river from Goldsboro to Newbern, through the enterprise of our countyman, Congressman Geo. E. Hood, mention of which was made in last week's Tribune, is attracting widespread interest. The esteemed Wilmington Star, whose habit it is to give all possible encouragement to everything that points toward substantial development of Eastern Carolina, gave strong editorial endorsement to this project several days ago. Should this work prove feasible and eventually become a reality, it would mean great things for Goldsboro and all this section of the State. Here is an opportunity for Congressman Hood to immortalize himself—and he may be depended upon to accomplish it if it be within the realm of possibility.—Mt. Olive Tribune.

Did Not Know He Had Kidney Trouble

"Until I applied for life insurance," writes Andrew O'Donnell, Birmingham, Ala., "I did not know that I had kidney trouble, but four physicians who examined me for the company said I had, and each turned me down on account of this insidious trouble. Later I was seriously disabled and used Foley Kidney Pills, and used them persistently, until now one of the same physicians says I'm all right and he will O. K. my application. I have caused many of my friends to buy Foley Kidney Pills."

Overworked kidneys may become inflamed and seriously diseased while the sufferer ignores the warnings. Backache, rheumatism, uric acid in the blood, discolored urine, stiff joints, sore muscles, puffiness under eyes—any and all of these conditions deserve instant attention. Foley Kidney Pills help the kidneys to do their work, soothe and heal irritations and help throw out poisonous waste matter from the system.

NOTICE.

To the Fishermen and Others Interested in the Fishing Industry of North Carolina.

At a meeting of the Fisheries Commission Board, held in Washington, North Carolina, on April 29th and 30th, 1915, a full membership of the Board being present, the following orders were passed:

First.—It was ordered that until January 1st, 1918, for experimental purposes, Ocean pound nets be allowed to extend to 200 yards of the shore, said nets not to be placed within three (3) miles of either side of any inlet and within one (1) mile of either side of Cape Lookout Bight.

Second.—That the fishing of pound nets shall be prohibited in the waters of Albemarle Sound and its tributaries from June 1st until January 1st.

Third.—That no net smaller than 1½ inch bar before taring shall be fished in the waters of North Carolina, provided that this shall not apply to nets fished exclusively for shrimps and menhaden.

Provided further that skim and cast nets only shall be used for the catching of shrimps in Pender, New Hanover and Brunswick counties.

The following itinerary has been arranged:

Tuesday, June 8th, 1915, Edenton, N. C. from 9 A. M. till 1 P. M., at the Court House.

Wednesday, June 9th, 1915, Manteo, N. C., from 10 A. M. till 1 P. M., and from 2:30 P. M. till 5 P. M., at the Court House.

Friday, June 11th, 1915, Morehead City, N. C., from 10 A. M. till 1 P. M., and from 2.30 P. M. till 5 P. M., at Red Men's Hall.

Saturday, June 12th, 1915, Wilmington, N. C., from 2 P. M. till 6 P. M., at the Court House.

Any persons desiring to be heard upon any of the above questions are requested to attend at some one of the above named places at times designated.

URGE RETENTION OF MAJOR H. W. STICKLE

Earnest Petition Will be Sent to Senator Simmons.

Strong Pressure to Be Brought to Bear Upon Proper Officials to Retain His Services Here as District Engineer.

The strongest sort of pressure is to be brought to bear upon the proper officials at Washington to retain for the Wilmington district, the distinguished services of Major H. W. Stickle, U. S. A., commanding officer, Corps of Engineers, whose recent transfer to the Baltimore district was officially announced.

In addition to the very strong representations made earlier in the week by the Wilmington Chamber of Commerce and the Board of Commissioners of Navigation and Pilotage for the Cape Fear river and bar, practically every large business interest on the wharf and in marine circles yesterday joined in a very earnest petition to Senator Simmons asking for Major Stickle's retention here until the present projects are fully completed. The petitions are as follows:

"Wilmington, N. C., May 20, 1915.

"To Hon. F. M. Simmons, United States Senate, Washington, D. C.

"Sir: The undersigned citizens of the city of Wilmington being deeply interested in the River and Harbor Improvements by the Federal Government upon which our commerce depends, have learned with keep regret that the present Commanding Officer, Major H. W. Stickle, will probably be ordered away from Wilmington to another post.

"We believe that the removal of this efficient officer from the Cape Fear at present would be prejudicial to the work which he has carried on so satisfactorily and that his retention in Wilmington until the present projects are fully completed is most desirable.

"We ask that you will endeavor to have Major Stickle continued on this duty.

RENDERS DECISION TODAY.

Recorder Will Pass Judgment on Women Charged With Selling Booze.

Recorder Empie announced yesterday that he would postpone until today the rendering of judgment in the cases of a dozen or more white women, who are alleged to have violated the prohibition law. These women were arrested by the police as a result of the investigations of a special detective and they have appeared before the Recorder on different occasions during the week. All of them have been recognized for their appearance.

Joe and Lawrence Johnson, two colored boys, and their mother, Adelaide Walker, were before the Recorder on charges of forcible trespass and assault with a deadly weapon as the result of a fracas at their homes in Brooklyn on Thursday night. They were found not guilty and were discharged. Walter Chadwick, white, was taxed with the costs for throwing glass on the streets. E. A. Shand, white, and Matthew Page, colored, were each taxed with one-half of the costs for engaging in an affray.

HAD ENJOYABLE OUTING.

Lutheran Sunday School Children Have Picnic at Wrightsville Beach.

More than 500 children of the Sunday schools of St. Matthew's and St. Paul's Lutheran churches had an enjoyable outing at Wrightsville Beach yesterday. Special cars for the children of St. Matthew's, accompanied by the superintendent, Mr. W. W. Koch, left Front and Princess streets at 10 a. m. and at 3 p. m. the children of St. Paul's, accompanied by the superintendent, Mr. C. W. Polvogt, went down to spend the afternoon.

Rising Temperatures Yesterday.

After several days of cool weather in Wilmington there was decided tendency yesterday for the mercury to start back on the upward climb, the maximum being 84 as compared with 77 for the previous day. The minimum was 65 as compared with 58 for Thursday. The thermometer was 74 at 8 a. m. yesterday, while the day before at the same hour it was only 62.

LADY WISHES TO HELP PLAYGROUND MOVEMENT.

Wilmington Woman Sends Star Contribution for Strange Memorial.

The endorsement of the suggestion made last fall by Mrs. W. M. Creasy that the vacant ground in the vicinity of the Marine Hospital be fitted up as a playground to be a memorial to the late Bishop Robert Strange, contained in the annual report of the Tree and Park Commission this week, has met with the general approval of the people of the city. Mrs. Creasy was instrumental, through North Carolina Sorosis, in securing the offer from the government to give the ground as a recreation center for children upon the condition that it be fitted up by the people of the city. Later she suggested through the public press that this be made a memorial to Bishop Strange because of the great interest that he always took in young people.

The Star is in receipt of 50 cents from "M. L. K.," a Wilmington woman, who heads the list of contributors to the fund. This money and other contributions that may be made will be turned over to the proper authorities and it is hoped that there will be many responses.

The suggestion made by the Tree and Park Commission was that the citizens of Wilmington make small individual contributions in which everyone can take part. It was also suggested in the report that it would easily be possible to secure enough money in this way to erect an attractive gateway to the grounds as a memorial to the late Bishop Strange.

SECRETARY HUNT HERE.

Conferring With President T. E. Cooper About Bankers' Meet.

Mr. W. A. Hunt, secretary of the North Carolina Bankers' Association, arrived yesterday from Henderson and spent the day in conference with President Thos. E. Cooper, of the association, relative to the annual meeting to be held at Wrightsville Beach, June 17th, 18th and 10th. The programme is now being arranged and will be completed and printed in a week or ten days.

Mr. Hunt expressed himself while here as of the opinion that here would be a very large attendance at this session of the association and that many members would be accompanied by their wives and other lady members of their families. A feature of the meeting will be the trip from here by steamer to New York, the party for this trip being made up of the membership of the association who desire to make the trip.

Goes With Oceanic.

Friends of Mr. William J. Blow will be delighted to know that beginning June 1st, he will be behind the desk at the Oceanic Hotel, Wrightsville Beach. Mr. Blow is one of the most popular hotel men in the State, has had wide experience in the hotel business and will be a valuable addition to the Oceanic staff during the coming season.

BEGIN WORK ON THE BUDGET

City Council Completed Drafting of Tax Ordinance Last Night—No Further Material Changes.

The tax ordinance was practically completed at a conference of the members of City Council last night and it is now almost ready to go to the printers. No further changes of any importance were made. In some instances it has been necessary to change the wording in order to make the provisions comply with recent legislation. Some preliminary work was done on the budget, but little progress was made. It is expected that further consideration will be given to the budget at a conference, probably on Monday night, before the next regular meeting of Council.

It had been reported that the recall petitions were to be presented at the meeting last night, but this did not prove to be the case. The petitions are not supposed to be presented to Council until they have been passed upon by the city clerk and treasurer. There seems to be little interest in the petitions at the present time and so far as can be learned there seems to be little disposition to continue the agitation further.

One of the new features of the tax ordinance decided upon last night was the insertion of a provision charging the legal rate of interest on all unpaid taxes after February 1st of each year.

It is understood that Council will make an effort to reduce the ad valore mtax rate from $2 to $1.90. However, this cannot be decided upon until after the budget is completed.

BETWEEN TWO FIRES

Watchman at Guano Factory Had Unpleasant Experience.

Caught between a cross-fire of two negroes whom he had surprised in the act of stealing some building material on the grounds of the Almont fertilizer factory, up Northeast river, beyond Hilton bridge, late Wednesday night, Mr. Butler, the night watchman, was forced to let one of the number whom he had arrested, get away and the other made himself scarce when the watchman blazed away at him with a double-barrelled shotgun with which he had been armed to protect the material, which had been missing from time to time.

The management of the factory told Mr. Butler of missing some of the material on the yards and instructed him to keep a close watch. A little before midnight two negroes who had just landed in a boat, crept up from the river and began to remove the property. After a portion of the material had been taken to the boat, Mr. Butler came from his hiding place and arrested one of the number. About this time the other negro opened fire on the watchman from behind. Mr. Butler swung in his steps and fired at the negro at his back. When he had done so, the negro who had been arrested opened fire from the front and then both ran away. No one was hurt.

The incident was reported to County Officer H. Mack Godwin, who has begun an investigation. Charles Pope, colored, who was found to be the owner of the boat, has been arrested and the officer is on track of others who will no doubt also end in limbo.

IN SUPERIOR COURT

Little Progress Made in Clearing Up Docket—Continues Today.

After having made an ineffectual effort to try cases that were scheduled to be held yesterday Judge George Rountree adjourned Superior Court at 3:30 o'clock yesterday afternoon until this morning. This followed a recess which was taken from 11 a. m. until 3 p. m. Several cases on the docket were moved up for later in the term.

In the case of W. T. Grissom against R. M. Grissom et al. the plaintiff upon an intimation from the court took a non-suit and appealed to the Supreme Court. This was a suit over a title to some land in Federal Point township. K. C. Sidbury, Esq., represents the plaintiff and Bellamy & Bellamy appeared for the defendants.

In the case of C. F. King against the Bryant Manufacturing Company a juror was withdrawn and a mistrial ordered.

Isabella Walker and Will Walker, both colored, were granted an absolute divorce by the jury which heard the evidence.

WILL ASK FOR NEW BIDS.

Special Meeting of Board of Education Held Yesterday.

A special meeting of the Board of Education was held in the office of the board yesterday afternoon at 4 o'clock with all members present, including Chairman J. O. Carr and Messrs. B. Solomon and J. G. L. Gieschen. The plans for the educational rally were discussed, following which several routine matters were taken up.

Three bids were received for the old Myrtle Grove school building, two for $50 and one for $60. All of them were rejected on the ground that they were not sufficiently large.

Bids for a part of the Williston school property, including the lot located on Seventh street, 66 by 82 1-2 feet in size, were opened. There were three bids submitted as follows: J. E. Taylor, $1,000; Sol Sternberger, $1,125, and one by C. B. Bellois for $1,175. All of them were rejected because of being insufficient. It was decided to advertise the building for sale without the lot immediately.

TOWING INTO HALIFAX.

Schooner From Wilmington in Tow of Coast Guard Cutter Seneca.

The Coast Guard cutter Seneca has reported by wireless that she is towing into Halifax the schooner William Thomas Moore, which sailed from Wilmington, March 25 for New York and was abandoned April 5 when 110 miles southeast of Cape Henry. She had been carried several hundred miles to the north and eastward by the Gulf Stream. The Moore was built at Bethel, Del., in 1902 and hailed from Seaford, both on the Nanticoke river.

The William Thomas Moore carried 293,186 feet of lumber from this port, consigned to New York by Robert R. Sizer & Co., of that city. Capt. Jones was her master and she was cleared by C. D. Maffitt & Co., ship brokers, of this city. Her cargo was, of course, insured.

FUNERAL OF MR. GURGANUS

Remains of Delgado Citizen Will Be Taken to Ivanhoe This Morning.

The remains of Mr. Hezekiah Gurganus, whose death occurred at his home at Delgado at 9 o'clock Thursday night, will be taken this morning to Ivanhoe, where the funeral and interment will take place today. The deceased was 57 years old and is survived by his wife and several children.

THIS IS SCOUTS' TAG DAY

Boys Will Endeavor to Secure Sufficient Funds to Purchase Permanent Camping Outfit.

Have you been tagged yet?

This is a question that will be put up to Wilmingtonians today by members of the Boy Scout organization. They will be stationed in different parts of the city and everyone who makes a contribution to the fund for purchasing a permanent camping outfit for the local patrols will be tagged. It is estimated that $200 will be required to purchase all the supplies that are needed. Governor Craig and Mayor Moore have given their endorsement to the Boy Scout movement.

Mr. Odis B. Hinnant, boys' secretary for the Y. M. C. A., is scout master and has general supervision of the movement. The boys will meet at the Y. M. C. A. at noon for lunch and to make reports of results. They will then return to their stations. They will begin work at 7 o'clock and will be stationed as follows:

Front and Dock—Graham Farmer and Reginald Blomme.
Front and Orange—Joe Howe and John Clarke.
Front and Walnut—Douglass Sprunt and Howard Penton.
Front and Princess—Harry Tucker and William Ek.
Front and Market—Lenox Cooper and Carl Mahler.
Front and Chestnut—Frank Russell.
Front and Red Cross—William Mahler and Howard Green.
Third and Princess—Eugene Hardin and Wesley Turrentine.

The following boys have not been assigned stations but will take part in the campaign: Tom Whitehead, Clewell Howell, Charles Cavenaugh, James Waddell, Luke French, Dan Penton, Edward Pratt, Henry Gordon and Calvert Hall.

HARDWARE CONVENTION.

Eleventh Annual Gathering of Association of the Carolinas.

Hardware men all over the State have received very handsome souvenir programmes of the forthcoming 11th annual convention of the Hardware Association of the Carolinas, which meets this year at the Isle of Palms, near Charleston, S. C., July 13th to 15th.

The programme is in the nature of a year book and is handsomely printed in colors, bearing to members of the association cordial greetings from President W. H. Keith, Secretary and Treasurer T. W. Dixon and other officials of the organization. The programme includes addresses and discussions of interest to the trade while the social features have not been neglected. Music and dancing at the pavilion with the drawing of a 400-foot seine in front of the pavilion are among the diversions offered to the large attendance that is expected. In addition there will be a harbor trip and trolley ride about Charleston, where many points of historic interest may be seen. Practically all the hardware men in Wilmington are members of the association and it is likely there will be a number of delegates from this city to the convention. The railroads are offering attractive rates and accommodations for the meetings.

PREOCCUPATION SUBLIME.

Young Man Unthoughtedly Turned in False Fire Alarm Last Night.

Eminently preoccupied by the conversation which he was enjoying with a young lady at Front and Red Cross streets last night at a quarter to eight o'clock, a young man whose name was not given at either fire or police headquarters, unthoughtedly pulled down the lever which sent in an alarm of fire from box 25, and brought the department out at full tilt to find only a very much discomfited young fellow and a young lady whose embarrassment must have been excruciating.

The young man was game enough to stand his ground by the box until the apparatus rolled up and he readily ferred. No names were given at either could thoroughly appreciate his position, therefore no charges were preferred. No names were kiven at either of the headquarters supposed to be concerned with wilful violations and there was no insistence for a bill of particulars under the circumstances.

HORSE CASE YESTERDAY.

Entire Day in Federal Court Taken Up With Hearing Evidence.

The entire day in Federal Court was tanen up with hearing the evidence in the case of Wilson & Adams, a western stocp concern, against Henry A. Grady and others of Sampson county. The suit was brought because of the purchase by the defendants of a stock horse which, it is alleged, was not up to the representations. The amount involved is about $2,600. Thos. W. Davis, Esq., of this city, represents the plaintiff while the defendants are represented by Hon. John D. Bellamy, C. D. Weeks and R. G. Grady, Esq., of Wilmington.

Judge Connor will hear the argument of counsel this morning. In order to make as much progress as possible with the docket he asked the attorneys to be in court at 9:30 this morning. Today will close the two week's spring term and Judge Connor will go to his home in Wilson tonight. He goes to Raleigh Monday to hold court.

MR. W. H. BULLARD DEAD

Well Known Confederate Veteran of Robeson County Passes Away.

Mr. J. A. Parham, night editor of The Star, received a letter yesterday afternoon from his brother, Mr. W. L. Parham, in Lumberton, conveying the sad intelligence of the death of their grandfather, Mr. William Henderson Bullard, a well known and highly esteemed Confederate veteran of Robeson county, which occurred about 6 o'clock yesterday morning at his home five miles southwest of Lumberton.

Mr. Bullard was about 90 years of age, and had been in very feeble health much of the time for the last several years, though prior to a few years ago his physical and mental vigor and sprightliness were remarkable for one of his age. He served throughout the War Between the States in the army of General Lee, whom he often saw face to face and whom he idolized ever since. Mr. Bullard was one who spoke of his experiences and hardships and deprivations during the four years of bitter and bloody combat as if he had enjoyed the excitement, and often remarked that he would gladly and cheerfully go through similar experiences again if duty should call. He was a loyal member of the Baptist church and had been since his early manhood.

He is survived by his wife, one daughter and three sons and a number of grandchildren and great grandchildren.

Government Pays Insurance.

The following from this week's Insurance Herald-Argus, of Atlanta, will be of interest in Wilmington: "Checks have been sent by the United States government to the owners of the American freight steamers Carib and the Greenbrier, sunk some months ago in the North sea by striking mines. The payment on the Carib was $22,253, and on the Greenbrier, $50,000. The war risk bureau also wrote the cargo of cotton on the Carib, which claim was paid last week. It wrote no insurance on the cargo of the Greenbrier."

CALOMEL WHEN BILIOUS? NO! STOP! MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tone" Is Harmless To Clean Your Sluggish Liver and Bowels.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tone. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

HOW TO CLEAR AWAY PIMPLES

Bathe your face for several minutes with resinol soap and hot water, then apply a little resinol ointment very gently. Let this stay on ten minutes, and wash off with resinol soap and more hot water, finishing with a dash of cold water to close the pores. Do this once or twice a day, and you will be astonished to find how quickly the healing resinol medication soothes and cleanses the pores, removes pimples and blackheads, and leaves the complexion clear and velvety.

Resinol ointment and resinol soap stop itching instantly and speedily heal skin humors, sores, burns, wounds and chafing. Sold by all druggists.

SOAP FOR BABY'S TENDER SKIN

The regular use of resinol soap is usually enough to prevent those distressing rashes and chafings to which most babies are subject. This is so, first, because resinol soap is absolutely pure and free from harsh alkali, and second, because it contains the resinol medication, on which so many physicians rely for skin troubles.

STATE OF NORTH CAROLINA, COUNTY of New Hanover.

By virtue and in pursuance of the power of sale contained in a certain mortgage made by T. H. McGee, and Mary C. McGee, his wife, to the City and Suburban Building Association, said mortgage deed bearing date of 15th day of November, 1913, and duly recorded in Book No. 74, at page No. 128, Register of Deeds Office of said New Hanover County. Default having been made in the payment of the obligation secured by said mortgage, the undersigned will expose for sale and sell, for cash, at Public Auction, to the highest bidder, at 12 o'clock, noon, the 9th day of June, 1915, the following described land, lying and being situate in the State and County aforesaid, Cape Fear Township:

All of lots or farms Number Thirteen (13), Fourteen (14) and Fifteen (15), according to map or survey made by J. A. Pickett for Matt. J. Heyer, which said map or survey is duly recorded in Book 69 at page 698, Public Records of New Hanover County, reference to which is hereby made for a more complete description. Also a strip of land thirty-five (35) feet wide, extending along the entire length of the Northern part of Lot or Farm No. 12, said strip being a part of Farm No. 12, lying South of Farm No. 13, reference being made to same map or survey, as above mentioned.

Dated and published this 8th day of May, 1915.

A most enjoyable concert was given the ladies and friends of the Catherine Kennedy Home Thursday evening by Prof. George's orchestra. Miss Mary Hatch, piano accompanist, Master Stewart Hopkins, clarinetist; Masters Harry McGowan, William Ek, Sim Schloss, Howard Karis, Edward Hatch, violinists, led by Prof. Georges, for two hours held a delighted audience, with their skillful rendition of popular music. Prof. Georges' development of the talent of his young musicians is really very wonderful. Those who heard them feel a brilliant future lies in their grasp. Very sincere were the thanks tendered the orchestra for the appreciated attention to the ladies.

JUNIORS TO ENTERTAIN HIGH SCHOOL SENIORS

The Junior class of the Wilmington High School will entertain the Seniors on the High School campus this evening beginning at 8:30 o'clock. The entertainment will be an elaborate affair and will include a splendid musical programme and many other interesting features. The occasion will be one of the most delightful of the commencement season in Wilmington.

Last evening the members of the Senior class were the guests at Lumina at the annual reception by the High School Alumni. There were a hundred or more who left the city on the 8 o'clock car and the evening was spent most pleasantly at the beach.

The Senior class will, on Tuesday night, on the High School campus, present "As You Like It." This will be a new and unique feature of the High School commencement, this being the first time that one of the classical plays has been given by a High School class though the original plays by the classes for several years have been one of the features of the commencement exercises.

The graduation exercises will take place in the Academy of Music on Wednesday evening.

ENTERTAINMENT FOR BOY SCOUTS AT MASONBORO.

An enjoyable entertainment was given at the Masonboro school house last night for the benefit of the Boy Scouts of that community. There was a large audience present. There was an excellent musical programme rendered, including a piano solo by Mr. W. G. Robertson, a vocal solo by Mrs. W. G. Robertson, a piano duet by Misses Ethel Orrell and Della Walton and a vocal solo by Miss Katherine Williams. The Wilmington High School orchestra, under the direction of Miss Pauline Crumb, played a number of selections during the evening.

Following the musical programme, the Boy Scouts gave interesting exhibitions of methods used in resuscitation from drowning and in rendering first aid to the injured. The scouts at Masonboro were only recently organized but are very enthusiastic and are making splendid progress. The entertainment last night was arranged by a committee of which Mrs. Henry Peschau was chairman.

At the close of the exercises last night ice cream was served. A neat sum of money was realzed for the Boy Scouts.

AFFAIRS OF INTEREST IN WARSAW SOCIAL CIRCLES.

Warsaw, N. C., May 21.—Miss Annie Garner entertained the Philathea class of the Captist church at her home on Wednesday afternoon from 5 till 6:30. After the outing business was transacted, new officers were elcted as follows: President, Miss Annie Kate Powell; vice-president, Miss Olivia Best; secretary-treasurer, Miss Annie Garner. Refreshments consisting of tea and wafers were served.

Mrs. A. C. Monroe was hostess to the Epworth League at its first social meting, on Thursday evening from 8 till 11 o'clock, at the home of her father, Mr. C. Woodard. The rooms were decorated with roses and other cut flowers. The programme consisted of music and recitations by the young ladies present, and a short address on "The Object of the Epworth League," by Mr. Wm. Alec. Powell. There was also a guessing contest at which Dr. S. E. Butler and Miss Mary White Carroll drew for the prize, a new novel. Dr. Butler won, and presented the prize to Miss Carroll. Mrs. Monroe, assisted by Mesdames J. C. Russ and C. F. Carroll and Misses Fannie Russ and Julia Ricks, served refreshments of iced tea and sandwiches. There were about fifty present to partake of Mrs. Monroe's charming hospitality.

There was recently organized a children's chapter, U. D. C., with the following little girls as officers: President, Martha Best; vice-president, Bessie Barden; recording secretary, Evelyn Anderson; corresponding secretary, Fannie Johnson; historians, Martha Gresham and Fannie Russ; treasurer, Francis Wilson. The chapter will hold its first regular meeting with Miss Martha Best Friday afternoon.

LOCAL DOTS.

—Plainclothesmen Frank George and B. W. Jacobs had a lively chase in Brooklyn last night when they saw several negroes take a gum vending machine from in front of one of the stores. The officers got so close behind the negroes that they dropped the apparatus and also a coat, but the officers were unable to catch them.

—Yesterday's Baltimore Sun: "The lighthouse tender Orchid, with supplies, was at Diamond Shoals light vessel yesterday morning and proceeded for the station ship on Cape Lookout Shoals. From there the Orchid will proceed to Charleston, where a contract has been awarded to a firm to repair and fit the vessel with wireless outfit."

—Jim Bryant, colored, who is charged with the larceeny of some fishing tackle from one of the cottages at Wrightsville Beach, was arrested yesterday morning by County Officer H. Mack Godwin and was lodged in the county jail to await a hearing before Justice Harriss this morning. It is alleged that he took a rod and reel from an unoccupied cottage.

SURPASSES SALISBURY

Hospitality of Wilmington Leaves Warm Spot in Hearts of Dokies.

One of the visiting Dokies to the recent pilgrimage of the Suez Temple of the Knights of Khorassan to Wilmington in an article in the May number of the Carolina Pythian, which has just come from the press, pays a fine tribute to Wilmington's hospitality in the following words:

"For a long time, the temple has had the idea that the cordiality of Salisbury was without rivalry, but from the very warm reception which was extended by the Wilmington brothers, we do not now feel that their hospitality can be surpassed. If it were not for the fact that we want to go back to Wilmington again next year, we would say that we really felt as though we were in Salisbury.

"The thorough success of the occasion was largely due to the united efforts of those royal good brothers, J. D. Nutt, W. P. McGlaughon, C. E. Haskett, Thomas D. Meares and that princely friend, J. W. Smith. The meeting will long be cherished as a most pleasant memory.

"Our next ceremonial will be held at Salisbury on Wednesday night, June 9. We hope all votaries who attend will bring along a candidate, and as Brother Walker Taylor said, 'make him a better Pythian by becoming identified with this branch of the order.'"

Weekly Trap Shoot.

While the attendance was not large, some very good records were made yesterday afternoon at the regular weekly shoot of the New Hanover Gun club. As the summer proceeds, these weekly shoots are expected to become more and more popular. The State shoot will be held here the latter part of June.

GIVE FAREWELL RECEPTION

Rev. Dr. and Mrs. J. H. Foster Receive Tokens of Appreciation From Members of First Baptist.

Rev. Dr. and Mrs. J. H. Foster, who will leave next week for their new home at Forsyth, Ga., were given a farewell reception in the Sunday school room of the First Baptist church last night. They were presented with a number of tokens of appreciation from their parishioners and there were many expressions of regret that they are to leave the city. There was a large attendance of members and friends of the church.

A splendid musical programme had been prepared for the occasion under the direction of Miss Cannie Chasten. After the singing of several selections by the choir and also by a quartette, Mrs. Edwards gave a violin solo.

In the audience was practically every pastor in the city and, while all of them did not speak, those who did make statements voiced the sentiments of the pastors as a whole. Rev. Dr. J. M. Wells, Rev. J. D. Bundy, Rev. F. B. Clausen and Rev. W. E Cox spoke feelingly and affectionately of the work that Dr. Foster has accomplished during his residence of a little more than five years in the city. His co-operation in every movement that has made for the betterment of the city and his readiness at all times to be of service not only to his church but also to the city were commented upon in terms of the highest praise.

Mr. W. C. Peterson, chairman of the board of deacons, told something of the work that Dr. Foster has done since he has been pastor of the First Baptist church. He expressed his deep personal regret that Dr .Foster is to leave and extended to him the best wishes of the church as he starts out upon his new field of labor.

In behalf of the board of deacons, in words of tender appreciation, Mr. C. B. Newcombe presented to Dr. Foster a gold watch as a slight token of the high regard of the official governing body of the church. Mr. Jim Perry for the Baraca class presented him with a handsome fountain pen.

The Helping Hand class, in which Mrs. Foster has taken an active and loving interest since she has been in the city, presented her with a pretty gift, the presentation being made by Mr. L. F. Gore. Mrs. Byerly for the Ladies' Society presented her with a lovely bracelet. For the members of the church, Rev. W. Marshall Craig, the populer assistant pastor of the church, presented to Dr. and Mrs. Foster a handbag and a silver drinking glass.

These presentations were acknowledged by Dr. Foster in a short address in which he spoke feelingly of his pastorate and of his devotion to the members of the church and to the people of the city at large. The remembrance of the days he spent in Wilmington would always go with him, he declared, as a blessed inspiration to encourage him to render loyal and unselfish service at all times to God and humanity.

LOCAL BRANCH IS ASSURED

Permanent Organization of Naval Reserves Last Night—Will Secure Government Vessel.

At a called meeting of those interested in the organization of a local branch of Naval Reserves held in the court house last night, the preliminary organization decided upon at the last meeting was made permanent and it was decided, as soon as a full complement of men is secured, to make application for entrance as a part of the North Carolina Naval Reserves.

At the last meeting Mr. J. H. LeGwin was elected president and Mr. Hugh C. Calder was made secretary and treasurer. The selection of the military officers will not be made until the enrollment of members is completed. However, there are several experienced men in the city availavle for the positions and there will be no difficulty on this score. Wilmington formerly had a branch of the Naval Reserves and a number of those interested in the new organizations were members.

The local organization has been assured that as soon as a sufficient number of men are enlisted a training ship can be secured with all necessary apparatus. The government will also furnish uniforms and all supplies. The type of vessel that is desired has not yet been decided upon and until this is done it is not known just how many men will be required. However, it is expected that there will be about 40 men.

The suggestion made several weeks ago for the organization of a branch of the Naval Reserves met with instant favor and since that time those interested have been actively at work on the plans for carrying the project through to a successful finish. With the splendid encouragement that they have received they feel that there is no doubt but that Wilmington will soon have an organization of which she will be proud.

WILLISTON SCHOOL CLOSING.

Large Audience at Exercises at Academy of Music Last Night.

The closing exercises of the Williston colored school were held in the Academy of Music last night. There was an immense audience present to see the 550 children in the rendition of several pretty operettas. There were were special reserved seats for the white people and there was a large delegation present.

The children of the first and third grades, 115 in number, gave a cantata, "The Fairies of the Seasons." "The Magic Ring(" a comic operetta, was given by 110 boys, all of the first and third grades. The next number was "The Fairy Godmother's Lesson," by 200 girls and boys of the first and second grades.

The pupils of the fourth and seventh grades, 125 in number, presented in a most excellent manner the operetta, "Boy Blue," in its entirety. This was divided into three parts and the children gave a variety of choruses.

The entire performance reflected great credit upon the teachers who have had the training of the children in charge. It is really a splendid tribute to the efficient work of the teachers that the pupils were able to render difficult operettas in such an excellent way.

The visitation days for the Williston school will be Monday, Tuesday, Wednesday and Thursday. The presentation of certificates will take place Thursday morning at 11 o'clock.

WORK ON GREENVILLE ROAD IS COMPLETED

Convicts Moved to Federal Point Road This Week—Splendid Progress.

The grading of the new Greenville public road extending a distance of three miles from Sea Gate to a point on the Masonboro road between Hewlett's creek and Winter Park has been completed and the force of convicts consisting of about 20 men have been moved to the Federal Point camp and are now engaged with the other convicts of that camp in grading the Federal Point road below the Carolina Beach boulevard. The Greenville road is constructed of sand-clay and those who have traveled over it say that it is one of the best roads in the county. It has taken several months to complete it.

Mr. R. A. Burnett, superintendent of county roads, said yesterday that splendid progress is being made in the clearing of the right of way and the grading of the Federal Point road. The road will be cleared as far as Wilmington Beach by the middle of next week. The road is to be graded to Fort Fisher Sea Beach, the distance yet to be graded being about three miles, and it is expected that it will take at least three months to complete this work.

By combining the Greenville camp with the Federal Point camp it has been possible to dispense with the services of one foreman.

Austin, Texas, May 21.—Announcement was made tonight by officers of the Austin Statesman Company that they have acquired the Austin Tribune, Austin's afternoon newspaper, and they will operate hereafter both the Austin Statesman and the Austin Tribune as morning and afternoon papers, respectively.

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months.

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui *today*. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

Slow milling means quality.

If you would look into a mill where Valier's Dainty Flour is made, you would see how slowly the work is done—so slowly that the flour seems to float from the white heart of the wheat kernels. We could make it faster; but it wouldn't be nearly so *fine;* nor bake nearly so *nice.*

Valier's Dainty Flour

sometimes costs a trifle more by the sack, but being so fine, it makes more in baking. And then it makes a whiter, lighter, more delicious biscuit—and cake and pastry too. Get a sack of this superfine flour today.

COTTON MARKET WAS STEADY

Renewed Covering Produced Advance in Early Trading—Prices Eased Off But Closed Steady.

New York, May 21.—Renewed covering caused a further advance in the cotton market during today's early trading, but prices eased off later, closed steady net 6 points lower to 3 points higher. The market opened firm at an advance of 5 to 9 points in response to relatively steady cables. There were evidently few sellers around the ring, and after some little irregularity active months sold 7 to 10 points net higher. A final spurt of covering by May shorts sent that position up to 9.52 before trading in the delivery ended at mid-day.

Firmness in the stock market also contributed to the early advance but the bulk of buying appeared to come from shorts and in the absence of bull support prices turned easier as soon as covering had run its course. Private cables attributed the advance in Liverpool to covering for over the holiday and that market was closed on tomorrow and Monday and Friday and Saturday of next week.

Cotton futures closted steady.

STOCK MARKET INCONCLUSIVE

Developments in Foreign Exchange Markets Watched With Keen Interest—The Only Features.

New York, May 21.—Developments in the foreign exchange markets today were regarded as of more importance than the day's rather inconclusive session on the stock exchange. Demand sterling fell to 475, the lowest rate since the panic of 1873, francs declined to the lowest quotation within the memory of exchange dealers and Italian remittances were virtually unsalable.

In the opinion of experts, unless the strain soon is relaxed foreign financial conditions will reach the point where most if not all the nations now at war may have to declare a double monetary standard—gold and paper.

Trading in stocks was almost twice as large as in th early days of the week, but th peculiar character of the day's operations may be appreciated from the fact hat a very large percentage of the turn over was in one of the low priced war specialties—crucible steel, which rose 4 3-8 points to its highest price. Bethlehem and Westinghouse gained as much or more and other specialties in the same class were prominent throughout. United States Steel more than held its recent recovery, despite denials of "war contracting rumors." Bonds heavy in the main noteworthy exceptions being Westinghouse convertible 5s and distillers' securities 5s, which made material gains. Total sales, par value, were $2,045,000. United States coupon and registered 3s advanced 1-4c on call.

WEEKLY COTTON REVIEW

Market Has Been Less Active During Past Week—Traders Inclined to Even Commitments.

New York, May 21.—The cotton market has been much less active during the past week and traders, quite generally, have shown a disposition to even up their commitments while awaiting a more settled political situation. After the recent big break and heavy liquidation this has resulted in a rally of about half a cent in price and in addition to coverings by shorts, there has been a little buying by trade interests. Weather conditions have been generally favorable with the weekly revi w of the bureau indicating the most satisfactory progress this season and there have been predictions that the first government report on June 1st would show a condition well above the ten-year average. The improvement in the crop outlook has created little or no pressure, however, and fresh selling undoubtedly has been checked by the failure of Southern spot markets to fully follow the decline in futures combined with a feeling that any improvement in political conditions, such for instance, as a pacific statement from Germany, might cause a revival of investment buying. It is reported that the unsettled contract markets and nervousness over general conditions has checked the demand for both goods and raw material but there has been little or no hedge selling in evidence in the local markets.

Reports from Egypt indicate that the reduction in acreage there will be fully 30 per cent and recent advices from Manchester have reported indications of an improved demand from India with hope of a better business with China since the settlement of the Japanese dispute.

BRADSTREET'S BUSINESS REVIEW.

Week's Developments in Trade Circles Disclose Some Irregularity.

New York, May 21.—Bradstreet's tomorrow will say:

"While trade and industrial conditions continue to move along generally favorable lines, the week's developments disclosed some irregularity. On the one hand wet or cool weather has checked distributive trade, and especially retail busines sand at the same time unsettled international political matters tend to cause wholesale buyers in some lines to go slow, while the same factor holds up certain speculative projects. But on the other hand industry is more active, employment is increasing and war orders continue to cause extraordinary speed at a number of centers. Jobbing trade in essential staples appears to be on a par with, if not above, last year's. Mail order houses are doing well. High prices for cereals insure prosperity for farming communities and crop conditions, notwithstanding exaggerated reports of insect damage to wheat, are unusually good. Railway traffic is increasing, buying of steel by the railroads is larger, bank clearings though lighter than last week, display gains over one and two years ago and in some places collections seem to be better.

Bank clearings for week $3,269,963,-000.

NEW ORLEANS COTTON

Market Sagged After Taking on Early Bulge—Closed at Small Net Loss.

New Orleans, May 21.—A bulge in the early trading today cotton took on a sagging tendency and finished at a net loss of 3 to 4 points, the lowest levels of the day. Reports that Italy had declared war were circulated freely and caused more or less buying but the market did not have a steady undertone and advances were not well maintained. Around the opening trading months were 7 points over yesterday's finals.

Cables were better than due and brokers had a fair volume of buying orders to fill on the opening call. Weather conditions over the belt were better than expected. On the whole it was a nervous and unsettled market.

Cotton futures closing: May 9.19; July 9.39; October 9.69; December 9.86; January 9.97.

Spots quiet, sales 250 bales, to arrive 1,100. Middling 900.

Messrs. M. Tremain, Richard Warren and John Bonitz are at home from Westminster School, at Rutherfordton, N. C., to spend the summer vacation.

* * *

His many friends in Wilmington will regret to learn of the critical illness of Mr. G. Ford Hewlett, formerly of this city, but for the past two years, of Savannah, Ga.

* * *

Friends of Mrs. J. C. Shepard and Mr Robert Bowden will regret to learn that their mother was stricken with paralysis at her home at Kenansville on Thursday. A telegram yesterday brought the sad intelligence that her condition was still serious.

* * *

Mrs. Alice Pearce, of Southport, was in the city yesterday en route to Greensboro, where she will attend the commencement exercises of the College for Women. Her daughter, Miss Jeannette Pearce, is a member of the graduating class at the college. Mrs. Pearce was accompanied by her granddaughter, Miss Alice Cranmer.

* * *

Mr. Edward J. Bowden has returned from Bingham School, at Asheville, N. C., where he has been in school the past year, and will spend the summer in Wilmington with his parents, Mr. and Mrs. Henry Bowden, No. 415 South Front street. He is accompanied home by his friend, Mr. J. Jecklin, of New York, who will spend a part of the summer vacation here.

* * *

A most enjoyable concert was given the ladies and friends of the Catherine Kennedy Home Thursday evening by Prof. George's orchestra. Miss Mary Hatch, piano accompanist, Master Stewart Hopkins, clarinetist; Masters Harry McGowan, William Ek, Sim Schloss, Howard Karis, Edward Hatch, violinists, led by Prof. Georges, for two hours held a delighted audience, with their skillful rendition of popular music. Prof. Georges' development of the talent of his young musicians is really very wonderful. Those who heard them feel a brilliant future lies in their grasp. Very sincere were the thanks tendered the orchestra for the appreciated attention to the ladies.

JUNIORS TO ENTERTAIN HIGH SCHOOL SENIORS

The Junior class of the Wilmington High School will entertain the Seniors on the High School campus this evening beginning at 8:30 o'clock. The entertainment will be an elaborate affair and will include a splendid musical programme and many other interesting features. The occasion will be one of the most delightful of the commencement season in Wilmington.

Last evening the members of the Senior class were the guests at Lumina at the annual reception by the High School Alumni. There were a hundred or more who left the city on the 8 o'clock car and the evening was spent most pleasantly at the beach.

The Senior class will, on Tuesday night, on the High School campus, present "As You Like It." This will be a new and unique feature of the High School commencement, this being the first time that one of the classical plays has been given by a High School class though the original plays by the classes for several years have been one of the features of the commencement exercises.

The graduation exercises will take place in the Academy of Music on Wednesday evening.

ENTERTAINMENT FOR BOY SCOUTS AT MASONBORO.

An enjoyable entertainment was given at the Masonboro school house last night for the benefit of the Boy Scouts of that community. There was a large audience present. There was an excellent musical programme rendered, including a piano solo by Mr. W. G. Robertson, a vocal solo by Mrs. W. G. Robertson, a piano duet by Misses Ethel Orrell and Della Walton and a vocal solo by Miss Katherine Williams. The Wilmington High School orchestra, under the direction of Miss Pauline Crumb, played a number of selections during the evening.

Following the musical programme, the Boy Scouts gave interesting exhibitions of methods used in resuscitation from drowning and in rendering first aid to the injured. The scouts at Masonboro were only recently organized but are very enthusiastic and are making splendid progress. The entertainment last night was arranged by a committee of which Mrs. Henry Peschau was chairman.

At the close of the exercises last night ice cream was served. A neat sum of money was realized for the Boy Scouts.

AFFAIRS OF INTEREST IN WARSAW SOCIAL CIRCLES.

Warsaw, N. C., May 21.—Miss Annie Garner entertained the Philathea class of the Captist church at her home on Wednesday afternoon from 5 till 6:30. After the outing business was transacted, new officers were elcted as follows: President, Miss Annie Kate Powell; vice-president, Miss Olivia Best; secretary-treasurer, Miss Annie Garner. Refreshments consisting of tea and wafers were served.

Mrs. A. C. Monroe was hostess to the Epworth League at its first social meting, on Thursday evening from 8 till 11 o'clock, at the home of her father, Mr. C. Woodard. The rooms were decorated with roses and other cut flowers. The programme consisted of music and recitations by the young ladies present, and a short address on "The Object of the Epworth League," by Mr. Wm. Alec. Powell. There was also a guessing contest at which Dr. S. E. Butler and Miss Mary White Carroll drew for the prize, a new novel. Dr. Butler won, and presented the prize to Miss Carroll. Mrs. Monroe, assisted by Mesdames J. C. Russ and C. F. Carroll and Misses Fannie Russ and Julia Ricks, served refreshments of iced tea and sandwiches. There were about fifty present to partake of Mrs. Monroe's charming hospitality.

There was recently organized a children's chapter, U. D. C., with the following little girls as officers: President, Martha Best; vice-president, Bessie Barden; recording secretary, Evelyn Anderson; corresponding secretary, Fannie Johnson; historians, Martha Gresham and Fannie Russ; treasurer, Francis Wilson. The chapter will hold its first regular meeting with Miss Martha Best Friday afternoon.

LOCAL DOTS.

—Plainclothesmen Frank George and B. W. Jacobs had a lively chase in Brooklyn last night when they saw several negroes take a gum vending machine from in front of one of the stores. The officers got so close behind the negroes that they dropped the apparatus and also a coat, but the officers were unable to catch them.

—Yesterday's Baltimore Sun: "The lighthouse tender Orchid, with supplies, was at Diamond Shoals light vessel yesterday morning and proceeded for the station ship on Cape Lookout Shoals. From there the Orchid will proceed to Charleston, where a contract has been awarded to a firm to repair and fit the vessel with wireless outfit."

—Jim Bryant, colored, who is charged with the larceeny of some fishing tackle from one of the cottages at Wrightsville Beach, was arrested yesterday morning by County Officer H. Mack Godwin and was lodged in the county jail to await a hearing before Justice Harriss this morning. It is alleged that he took a rod and reel from an unoccupied cottage.

SURPASSES SALISBURY

Hospitality of Wilmington Leaves Warm Spot in Hearts of Dokies.

One of the visiting Dokies to the recent pilgrimage of the Suez Temple of the Knights of Khorassan to Wilmington in an article in the May number of the Carolina Pythian, which has just come from the press, pays a fine tribute to Wilmington's hospitality in the following words:

"For a long time, the temple has had the idea that the cordiality of Salisbury was without rivalry, but from the very warm reception which was extended by the Wilmington brothers, we do not now feel that their hospitality can be surpassed. If it were not for the fact that we want to go back to Wilmington again next year, we would say that we really felt as though we were in Salisbury.

"The thorough success of the occasion was largely due to the united efforts of those royal good brothers, J. D. Nutt, W. P. McGlaughon, C. E. Haskett, Thomas D. Meares and that princely friend, J. W. Smith. The meeting will long be cherished as a most pleasant memory.

"Our next ceremonial will be held at Salisbury on Wednesday night, June 9. We hope all votaries who attend will bring along a candidate, and as Brother Walker Taylor said, 'make him a better Pythian by becoming identified with this branch of the order.'"

Weekly Trap Shoot.

While the attendance was not large, some very good records were made yesterday afternoon at the regular weekly shoot of the New Hanover Gun club. As the summer proceeds, these weekly shoots are expected to become more and more popular. The State shoot will be held here the latter part of June.

GIVE FAREWELL RECEPTION

Rev. Dr. and Mrs. J. H. Foster Receive Tokens of Appreciation From Members of First Baptist.

Rev. Dr. and Mrs. J. H. Foster, who will leave next week for their new home at Forsyth, Ga., were given a farewell reception in the Sunday school room of the First Baptist church last night. They were presented with a number of tokens of appreciation from their parishioners and there were many expressions of regret that they are to leave the city. There was a large attendance of members and friends of the church.

A splendid musical programme had been prepared for the occasion under the direction of Miss Cannie Chasten. After the singing of several selections by the choir and also by a quartette, Mrs. Edwards gave a violin solo.

In the audience was practically every pastor in the city and, while all of them did not speak, those who did make statements voiced the sentiments of the pastors as a whole. Rev. Dr. J. M. Wells, Rev. J. D. Bundy, Rev. F. B. Clausen and Rev. W. E Cox spoke feelingly and affectionately of the work that Dr. Foster has accomplished during his residence of a little more than five years in the city. His co-operation in every movement that has made for the betterment of the city and his readiness at all times to be of service not only to his church but also to the city were commented upon in terms of the highest praise.

Mr. W. C. Peterson, chairman of the board of deacons, told something of the work that Dr. Foster has done since he has been pastor of the First Baptist church. He expressed his deep personal regret that Dr .Foster is to leave and extended to him the best wishes of the church as he starts out upon his new field of labor.

In behalf of the board of deacons, in words of tender appreciation, Mr. C. B. Newcombe presented to Dr. Foster a gold watch as a slight token of the high regard of the official governing body of the church. Mr. Jim Perry for the Baraca class presented him with a handsome fountain pen.

The Helping Hand class, in which Mrs. Foster has taken an active and loving interest since she has been in the city, presented her with a pretty gift, the presentation being made by Mr. L. F. Gore. Mrs. Byerly for the Ladies' Society presented her with a lovely bracelet. For the members of the church, Rev. W. Marshall Craig, the populer assistant pastor of the church, presented to Dr. and Mrs. Foster a handbag and a silver drinking glass.

These presentations were acknowledged by Dr. Foster in a short address in which he spoke feelingly of his pastorate and of his devotion to the members of the church and to the people of the city at large. The remembrance of the days he spent in Wilmington would always go with him, he declared, as a blessed inspiration to encourage him to render loyal and unselfish service at all times to God and humanity.

PERSONAL PARAGRAPHS.

—Mr. William Gates, of Bolton, was a visitor in the city yesterday and the day before.

—Mr. Jack Adkins passed through the city yesterday on his way to his home in Southport, returning from A. & M. College, where he has been a student for the past scholastic year.

—Mr. H. Q. Thompson ,of Sloop Point, passed through the city yesterday on his way to Burgaw, where he will join Rev. E. L. Western and others and go in Mr. Western's auto to Black River for a fishing trip next Monday .

—Mr. W .M. Roper, of Atlanta, Ga., has been the welcome guests of his parents, Mr .and Mrs. J. T. Roper, of Malmo, N. C., for the last few days. He was accompanied by his sister, Miss Elizabeth Roper, to Wilmington where they visited their aunt, Mrs. W. F. Swift, joining here their brother, Mr. T. B. Roper, of Wilmington. Mr. Roper, after his visit, has returned to Atlanta.

LOCAL BRANCH IS ASSURED

Permanent Organization of Naval Reserves Last Night—Will Secure Government Vessel.

At a called meeting of those interested in the organization of a local branch of Naval Reserves held in the court house last night, the preliminary organization decided upon at the last meeting was made permanent and it was decided, as soon as a full complement of men is secured, to make application for entrance as a part of the North Carolina Naval Reserves.

At the last meeting Mr. J. H. LeGwin was elected president and Mr. Hugh C. Calder was made secretary and treasurer. The selection of the military officers will not be made until the enrollment of members is completed. However, there are several experienced men in the city availavle tor the positions and there will be no difficulty on this score. Wilmington formerly had a branch of the Naval Reserves and a number of those interested in the new organizations were members.

The local organization has been assured that as soon as a sufficient number of men are enlisted a training ship can be secured with all necessary apparatus. The government will also furnish uniforms and all supplies. The type of vessel that is desired has not yet been decided upon and until this is done it is not known just how many men will be required. However, it is expected that there will be about 40 men.

The suggestion made several weeks ago for the organization of a branch of the Naval Reserves met with instant favor and since that time those interested have been actively at work on the plans for carrying the project through to a successful finish. With the splendid encouragement that they have received they feel that there is no doubt but that Wilmington will soon have an organization of which she will be proud.

WILLISTON SCHOOL CLOSING.

Large Audience at Exercises at Academy of Music Last Night.

The closing exercises of the Williston colored school were held in the Academy of Music last night. There was an immense audience present to see the 550 children in the rendition of several pretty operettas. There were were special reserved seats for the white people and there was a large delegation present.

The children of the first and third grades, 115 in number, gave a cantata, "The Fairies of the Seasons." "The Magic Ring(" a comic operetta, was given by 110 boys, all of the first and third grades. The next number was "The Fairy Godmother's Lesson," by 200 girls and boys of the first and second grades.

The pupils of the fourth and seventh grades, 125 in number, presented in a most excellent manner the operetta, "Boy Blue," in its entirety. This was divided into three parts and the children gave a variety of choruses.

The entire performance reflected great credit upon the teachers who have had the training of the children in charge. It is really a splendid tribute to the efficient work of the teachers that the pupils were able to render difficult operettas in such an excellent way.

The visitation days for the Williston school will be Monday, Tuesday, Wednesday and Thursday. The presentation of certificates will take place Thursday morning at 11 o'clock.

WORK ON GREENVILLE ROAD IS COMPLETED

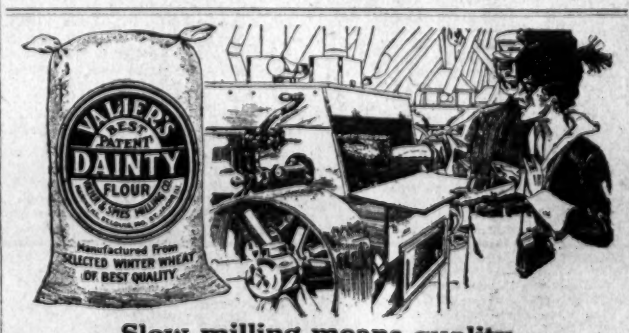
Convicts Moved to Federal Point Road This Week—Splendid Progress.

The grading of the new Greenville public road extending a distance of three miles from Sea Gate to a point on the Masonboro road between Hewlett's creek and Winter Park has been completed and the force of convicts consisting of about 20 men have been moved to the Federal Point camp and are now engaged with the other convicts of that camp in grading the Federal Point road below the Carolina Beach boulevard. The Greenville road is constructed of sand-clay and those who have traveled over it say that it is one of the best roads in the county. It has taken several months to complete it.

Mr. R. A. Burnett, superintendent of county roads, said yesterday that splendid progress is being made in the clearing of the right of way and the grading of the Federal Point road. The road will be cleared as far as Wilmington Beach by the middle of next week. The road is to be graded to Fort Fisher Sea Beach, the distance yet to be graded being about three miles, and it is expected that it will take at least three months to complete this work.

By combining the Greenville camp with the Federal Point camp it has been possible to dispense with the services of one foreman.

Austin, Texas, May 21.—Announcement was made tonight by officers of the Austin Statesman Company that they have acquired the Austin Tribune, Austin's afternoon newspaper, and they will operate hereafter both the Austin Statesman and the Austin Tribune as morning and afternoon papers, respectively.



Slow milling means quality.

If you would look into a mill where Valier's Dainty Flour is made, you would see how slowly the work is done—so slowly that the flour seems to float from the white heart of the wheat kernels. We could make it faster; but it wouldn't be nearly so *fine;* nor bake nearly so *nice.*

Valier's Dainty Flour

sometimes costs a trifle more by the sack, but being so fine, it makes more in baking. And then it makes a whiter, lighter, more delicious biscuit—and cake and pastry too. Get a sack of this superfine flour today.

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months.

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."

COTTON MARKET WAS STEADY

Renewed Covering Produced Advance in Early Trading—Prices Eased Off But Closed Steady.

New York, May 21.—Renewed covering caused a further advance in the cotton market during today's early trading, but prices eased off later, closed steady net 6 points lower to 3 points higher. The market opened firm at an advance of 5 to 9 points in response to relatively steady cables. There were evidently few sellers around the ring, and after some little irregularity active months sold 7 to 10 points net higher. A final spurt of covering by May shorts sent that position up to 9.52 before trading in the delivery ended at midday.

Firmness in the stock market also contributed to the early advance but the bulk of buying appeared to come from shorts and in the absence of bull support prices turned easier as soon as covering had run its course. Private cables attributed the advance in Liverpool to covering for over the holiday and that market was closed on tomorrow and Monday and Friday and Saturday of next week.

Cotton futures closted steady.

STOCK MARKET INCONCLUSIVE

Developments in Foreign Exchange Markets Watched With Keen Interest—The Only Features.

New York, May 21.—Developments in the foreign exchange markets today were regarded as of more importance than the day's rather inconclusive session on the stock exchange. Demand sterling fell to 473, the lowest rate since the panic of 1873, francs declined to the lowest quotation within the memory of exchange dealers and Italian remittances were virtually unsalable.

In the opinion of experts, unless the strain soon is relaxed foreign financial conditions will reach the point where most if not all the nations now at war may have to declare a double monetary standard—gold and paper.

Trading in stocks was almost twice as large as in th early days of the week, but th peculiar character of the day's operations may be appreciated from the fact hat a very large percentage of the turn over was in one of the low priced war specialties—crucible steel, which rose 4 3-8 points to its highest price. Bethlehem and Westinghouse gained as much or more and other specialties in the same class were prominent throughout. United States Steel more than held its recent recovery, despite denials of "war contracting rumors." Bonds heavy in the main noteworthy exceptions being Westinghouse convertible 5s and distillers' securities 5s, which made material gains. Total sales, par value, were $2,045,000. United States coupon and registered 3s advanced 1-4c on call.

WEEKLY COTTON REVIEW

Market Has Been Less Active During Past Week—Traders Inclined to Even Commitments.

New York, May 21.—The cotton market has been much less active during the past week and traders, quite generally, have shown a disposition to even up their commitments while awaiting a more settled political situation. After the recent big break and heavy liquidation this has resulted in a rally of about half a cent in price and in addition to coverings by shorts, there has been a little buying by trade interests. Weather conditions have been generally favorable with the weekly review of the bureau indicating the most satisfactory progress this season and there have been predictions that the first government report on June 1st would show a condition well above the ten-year average. The improvement in the crop outlook has created little or no pressure, however, and fresh selling undoubtedly has been checked by the failure of Southern spot markets to fully follow the decline in futures combined with a feeling that any improvement in political conditions, such for instance, as a pacific statement from Germany, might cause a revival of investment buying. It is reported that the unsettled contract markets and nervousness over general conditions has checked the demand for both goods and raw material but there has been little or no hedge selling in evidence in the local markets.

Reports from Egypt indicate that the reduction in acreage there will be fully 30 per cent and recent advices from Manchester have reported indications of an improved demand from India with hope of a better business with China since the settlement of the Japanese dispute.

BRADSTREET'S BUSINESS REVIEW.

Week's Developments in Trade Circles Disclose Some Irregularity.

New York, May 21.—Bradstreet's tomorrow will say:

"While trade and industrial conditions continue to move along generally favorable lines, the week's developments disclosed some irregularity. On the one hand wet or cool weather has checked distributive trade, and especially retail busines sand at the same time unsettled international political matters tend to cause wholesale buyers in some lines to go slow, while the same factor holds up certain speculative projects. But on the other hand industry is more active, employment is increasing and war orders continue to cause extraordinary speed at a number of centers. Jobbing trade in essential staples appears to be on a par with, if not above, last year's. Mail order houses are doing well. High prices for cereals insure prosperity for farming communities and crop conditions, notwithstanding exaggerated reports of insect damage to wheat, are unusually good. Railway traffic is increasing, buying of steel by the railroads is larger, bank clearings though lighter than last week, display gains over one and two years ago and in some places collections seem to be better.

Bank clearings for week $3,269,963,-000.

NEW ORLEANS COTTON

Market Sagged After Taking on Early Bulge—Closed at Small Net Loss.

New Orleans, May 21.—A bulge in the early trading today cotton took on a sagging tendency and finished at a net loss of 3 to 4 points, the lowest levels of the day. Reports that Italy had declared war were circulated freely and caused more or less buying but the market did not have a steady undertone and advances were not well maintained. Around the opening trading months were 7 points over yesterday's finals.

Cables were better than due and brokers had a fair volume of buying orders to fill on the opening call. Weather conditions over the belt were better than expected. On the whole it was a nervous and unsettled market.

Cotton futures closing: May 9.19; July 9.39; October 9.69; December 9.86; January 9.97.

Spots quiet, sales 250 bales, to arrive 1,100. Middling 900.

WILSON'S STAND IS HIGHLY ENDORSED

By the Lake Mohonk Canference on Arbitration

FINAL MEETING HELD

Dr. Mitchell, in Address, Said: "Public Opinion in America Has Been Wooed by Warring Nations As Mitress by Lover."

Lake Mohonk, N. Y., May 21.—President Wilson's stand in the international crisis was approved by the Lake Mohonk Conference on International Arbitration tonight at the conclusion of its twenty-first annual meeting. The conference platform declared:

"We express our gratitude to the President of the United States for steadfastly maintaining the neutrality of our government and for asserting, with firmness, clarity and restraint the rights of our people as citizens of a neutral nation."

The platform, as prepared by the platform committee, did not mention the subject of greater preparation for national defense urged on the conference by Secretary Garrison, Major General Leonard Wood and Rear Admiral Colby M. Chester, retired.

In addition to the paragraph approving the action of President Wilson, the platform contained this:

"The Lake Mohonk Conference on International Arbitration, although it met this year in circumstances that tend to discourage the hopes entertained by us as to the maintenance of general peace, particularly among the larger and more powerful nations of the world, reaffirms its faith in the beneficence of the measures for the advancement of which the conference was founded. The present war daily furnishes convincing proof of the superiority of those methods over the resort to violence.

Proposals Are Offered.

"We invite the thoughtful attention of all peoples and nations seeking a substitute for war to a consideration of the thre following proposals as a basis for joint action by any two or more powers, to be binding on the signers:

"1. All justifiable questions arising between the signatory powers not settled by negotioation, shall be submitted to a judicial tribunal for hearing and judgment both upon the merits of the case and upon any question of jurisdiction.

"2. All non-justifiable questions arising between the signatories and not settled by negotiations shall be submitted to a council of inquiry and conciliation for hearing, consideration and recommendation.

"3. Conferences between the signatory powers shall be held from time to time and formulate and codify rules of international law, which thereafter shall govern in the decisions of the judicial tribunal mentioned in the first proposal."

The paltform as presented by the platform committe was unanimously adopted.

Addresses were made by the Rev. Frederick Lynch, of New York, secretary of the Church Peace Union founded by Andrew Carnegie, Mary E. Wooley, president of Mount Holyoke College, and Dr. S. C. Mitchell, president of Delaware College.

"While there have been many surprises in the course of this struggle," said Dr. Mitchell, "the chief surprise has been the failure of Germany to calculate the force of conscience in human affairs. Diplomacy broke down, treaties were crushed like an egg shell, international law fell like a card house. But there has emerged amid the wreckage the efficacy of conscience as never before. Public opinion in America has been wooed by th warring nations as a mistress by a lover. The moral opinion of America may prove to have more weight than armies and navies in deciding the colossal issues at stake."

TAX LISTERS WILL HAVE BOOKS OPEN TONIGHT

Harnett Township Listers to Be at Court House All Next Week.

In order that those who have to work through the week all day at their places of business may have an opportunity to list their taxes without inconvenience, the tax listers will be at the court house tonight from 7 to 9 o'clock. While many have listed their taxes there are still a large number who have failed to do so and as the time is fast drawing to a close for listing property it is advisable for all who can possibly do so to attend to this matter at once. There is always a rush towards the last of the tax listing season and this makes it very inconvenient not only for the listers but also for those wishing to list their property.

The tax listers of Harnett township will be at the court house all next week for the purpose of listing taxes and the listers from Cape Fear, Masonboro and Federal Point townships will be at the court house on Friday and Saturday of next week. This is done in order to make it convenient for those coming to the city to list their taxes.

ACTIVE COMPETITION FOR THE BELL SYSTE[illegible]

Independent Telephone Lines to Extend Service.

Arrangements Practically Made With the Postal Telegraph Company for Use of Long Distance Lines Is Announced.

Memphis, Tenn., May 21.—Announcement was made at the annual meeting of the Tri-State Telephone Association here today that the independent telephone companies of the South virtually had completed arrangements with the Postal Telegraph Company for the use of wires of the telegraph company to establish a long distance telephone service throughout the Southern States.

It was stated that the so-called independent companies, which heretofore maintained only a limited long distance service, would immediately enter into active competition with the American-Bell system.

It also was announced that the Tri-State Association, after the present meeting, would extend their membership to all the Southern States.

Representatives of independent telephon systems in Chicago, Washington and other cities, besides those from the South, attended the meeting, which will adjourn tomorrow.

WAR VIRTUALLY EXISTS BETWEEN ITALY AND FORMER ALLIES

(Continued from Page One.)

000 soldiers have been concentrated on the coast of Italy, across the Adriatic from Albania. These troops are at Brindisi, Bari and Fogmia.

THOUSANDS WILL VOLUNTEER.

Italian Colonies in World Centers Will Return to Native Land for War.

Rome, May 21, via Paris.—Reports from th eItalian colonies in London, Barcelona, New York, Chicago, San Francisco, Buenos Aires and Egypt say that thousands of Italians are ready to answer a call for mobilization and that thousands of others will volunteer for the war.

IMMUNITY IS SUSPENDED.

Diplomatic Relations With Ambassadors of Tentonic Powers Broken.

London, May 21.—A dispatch to the Exchange Telegraph Company says:

"Premier Salandra this morning obtained the royal signature to a decree suspending the diplomatic immunity of the Austrian and Greman ambassadors to the vatican who leave tomorrow."

WEATHER HAMPERS FIGHTING

Sir John French Declares, However, That British Coatinue to Advance.

London, May 21.—"Since my communication of the seventeenth," says Sir John French, British communander-in-chief, in an official communication tonight, "the operations have been hampered by the weather.

"But in spite of this our troops have made appreciable progress east and south of Laquinque road (near Neuve Chapelle). The main characteristics of these operations have been numerous local fights for strong points behind the enemy's original line. In capturing several of these, our infantry again has displayed great gallantry.

"On the remainder of the front there is nothing to report except minor artillery engagements.

"Last night we brought down a German aeroplane near Ypres."

OPINION OF AN EXPERT

French Military Expert Thinks Italy Will Make Initial Move.

Ptaris, May 21.—General De Lacroix, military critic of the Temps who is considered one of the most authoritative writers on military matters in France, gives it as his judgment that the Italian army will not await for an Austro-German attack but will take the initiative and throw large numbers of troops at some selected point.

General DeLacroix says that the Italian army is admirably armed. Its light artillery is comparable to the French three-inch guns.

Other military authorities say that the Italian army on a war footing consists of about 1,000,000 first line troops and an equal number of second line troops.

CUMBERLAND ASSEMBLY ELECTS

Stated Clerk and Next Meeting Place —Entire Session Take Up.

Memphis, Tenn., May 21.—The General Assembly of the Cumberland Presbyterian church, in session here today, elected Rev. D. W. Fooks, of Fulton, Ky., stated clerk and treasurer and selected Birmingham, Ala., as the next place of meeting and adopted a resolution endorsing the work of the Gideon organization.

The contests for the office of stated clerk and place of meeting next year occupied the greater part of today's session and disarranged the announced programme which included the presentation of reports of the various church boards. The majority of these reports probably will be read tomorrow morning.

FIRST AID CABINETS

Presented by Wilmington Red Cross to Two Colored Schools.

Completing a similar service for all the schools of Wilmington, Mrs. Cuthbert Martin and Mrs. J. M. Solky, in behalf of the Wilmington Red Cross Society, yesterday visited the Williston Industrial and Peabody Normal, colored schools of the city, presenting each of these institutions with a first aid to the injured cabinet. Every school in the city is now equipped with these usual devices and the presentation to the schools yesterday was a pleasing little incident of the great work the Wilmington Red Cross is now doing in the community.

Mrs. Martin at each school made the presentation and the principals and and others received the gifts with much thanks and evidences of appreciation. Mrs. Martin complimented highly the work of Anna Bentley, the colored visiting nurse, and urged pupils of the schools to strive for cleaner and more sanitary surroundings in every way.

College Honors President Graham of the University

DR. W. L. POTEAT SPEAKS

Honoraries Conferred Upon Rev. Hight C. Moore, Judge R. W. Winston, and Dr. Graham—Commencement Exercises End.

(Special Star Correspondence.)

Wawe Forest, N. C., May 21.—By virtue of their service to the State and to their fellowmen, upon recommendation from the board of trustees and the faculty of Wake Forest College, honorary degrees were conferred upon Hight C. Moore, of Raleigh, doctor of divinity; Judge Robert W. Winston, of Raleigh, doctor of laws; President Edward Kidder Graham, of the University of North Carolina, doctor of laws. The presentation of the academic degrees to 83 members of the class of 1915, of Wake Forest College, followed by Dr. Poteat's annual baccalaureate address closed the exercises of the 81st commencement of Wake Forest College today.

After prayer by Rev. H. T. Williams, of Chase City, Va., the exercises this morning began with the senior orations, Mr.R. L. Brown appearing as the first speaker. The remaining five senior orators were Messrs. J. P. Mull, A. Y. Arledge, J. M. Pritchard, B. M. Watkins, Earl Prevette.

The following gentlemen acted as judges: Justice W. A. Holt, Judge R. W. Winston, Hon. T. W. Bickett, and decided that Mr. Basil M. Watkins, of Goldsboro, had delivered the best oration and he was declared minner of the A. D. Ward medal. Medals given by the Philomathesian and Euzelian Literary societies, together with the student medals, and the Hubert A. Royster medal were then presented.

Robeson Man Heard.

Mr. R. L. Brown, of Robeson county, was the first orator of the day. Mr. Brown had chosen as his subject, "Unrecognized Heroism." The speaker began by saying that there were errors in regard to the nature of heroism; that there were heroes of a deeper and truer type than the sailor who goes down with his ship and the soldier who rushes to death in the mouth of a cannon; the other class are heroines.

In every phase of life we see the heroine. We see her in battle, we see her with the Red Cross Society, and lastly, we find her at home undergoing hardships while the men are at the front. Mr. Brown gave numerous examples of heroic sacrifices made by women in practically every phase of life, and yet, saidhe, their heroism is unrecognized.

New Hanover Man a Winner.

The medals from the Euzelian society for improvement and superiority in debate were awarded to the following men: Freshman Improvement medal to A. C. Reid, of Davidson county; Junior debater's medal to E. B. Cox, of New Hanover county; Senior orator's medal to C. B. Sawyer, of Tyrrell county; the J. L. Allen medal for the best debater in society to B. M. Boyd, of Mecklenburg county.

From the Philomathesian society to the following: Freshman medal to R. L. Humber, Jr., of Pitt county; Sophomore medal to J. M. Hayes, of Wilkes county; Junior medal to J. G. Booe, of Davie county; Senior medal to R. L. Brown, of Robeson county; John E. White orator's medal to T. A. Avera, of Nash county.

The medals given by The Student, the monthly publication of the two literary societies, for the best essay was awarded to G. D. Rowe, of Fredericksburg, Va.; fiction medal to G. A. Moseley, of Guilford county.

The Hubert A. Royster medal to the best student and athlete was awarded to J. A. Abernathy, of Mecklenburg county.

Baccalaureate Address.

"Culture and Leadership" was the subject of Dr. Poteat's baccalaureate address. He began by pointing out to the graduates that it was good providence that picked them out of the mass of their fellows and sent them to college in order that they might enhance their power of acquisition, and to enlarge the capacity of enjoyment, but, continued the speaker, if you leave these halls with such a selfish view of your college training, you demonstrate at once your unworthiness and the defeat of the college.

Culture is the call to leadership, and Christian culture is a call to the leadership of the forces of righteousness. Culture combined with Christian motive is the instrument to transform democracy into Christian democracy and establish it in perpetuity, asserted Dr. Poteat. The speaker then gave a definition of such a culture, declaring that "It is marked by a store of ideas gathered out of all the fields of human interest and activity, and so is not non-plussed in a new situation, is capable of prompt adjustment, is fertile of suggestion, with the result of passing into any group not so trained into a natural leadership."

Some of the Graduates.

Among the 83 young men upon whom academic degrees were conferred today were the following:

Master of Arts, M. A. Huggins, Marion, S. C.

Bachelor of Arts, R. L. Brown, Robeson county; A. L. Carleton, Duplin; C. E. Chambliss, Wilson; M. H. Jones, Cumberland; B. R. Page, Cumberland; B. M. Watkins, Wayne.

Bachelor of Laws, G. W. Braddy, Bladen county; C. C. Cashwell, New Hanover; W. H. Fisher, Sampson; P. S. Herring, Wayne.

ROCKEFELLER AND CHAIRMAN WALSH IN SEVERAL CLASHES

(Continued from Page One.)

force for his own protection. In regard to questions of responsibility and the use of the militia he declared that the conduct of measures against the strike had been left to officers of the coal company and he personally could not pass upon the use of force.

"But suppose you, yourself, had to decide the question?" demanded Chairman Walsh.

"I believe it is always proper to defend life and property," the witness replied.

"If the constiuted authoritics failed to do so, you would protect your life and property yourself?"

"Yes."

"And you would use force?"

"Yes. All the force necessary to protect my life and property. I think any one would do that."

Labor Should Organize.

Rockefeller reiterated his belief in the right of labor to organize, asserting that he believed in it as firmly as he did that capital should organize. He said he had made no personal effort to bring about as interview between officials of the Colorado Fuel and Iron Company and union officers during the recent strike, though he would not have had objection to such an interview. The chairman argued that such an interview would have averted the strike and asked:

"Did not you as a 40 per cent. stockholder and a director assume responsibility for all that followed when you failed to use your influence to bring about that interview?"

"I have assumed full responsibility that is mine in the conditions," said Rockefeller.

"I did what I thought was right and proper. I assume the responsibility of a director and stockholder. It is simply your opinion that the interview would have averted the strike. I don't know that it would have."

Rockefeller's attention was called to articles written by the presidents of the Denver University and the Colorado college favorable to the coal companies in the strike.

"Do you know that some time after those articles were written the Rockefeller General Education Fund contributed $100,000 to Denver University and $100,000 to the Colorado college?" asked Walsh.

"I do not know that," answered Rockefeller emphatically. "But if such contributions were made they had absolutely no connection whatever with the statements made by those gentlemen."

ENGLAND ASSUMES TOO MUCH STATES SECRETARY BRYAN

(Continued from Page One.)

by Great Britain. Of these ships the cargoes of eight are before the prize court, and ten have been released with their cargoes, three of them being permitted to go forward before the publication of the British order in council.

The British government, the embassy says, has agreed to purchase all or a part of the cargoes of 13 of the ships detained. In several cases part of the cargo was put into prize court and that part the government states, it will purchase."

Ambassador's Statement.

The statement of the British ambassador read:

"The terms of the arrangement quoted in the British statement as telegraphed were arrived at in London between a private representative of the American cotton interests in London and British officials in London. The reference to the British ambassador in paragraph four is therefore an error.

"The arrangement in question formed the subject of conversations between the ambassador and representatives of cotton interests in this country. There never was any question of a formal understanding between the United States government and the British embassy."

The memorandum issued by the British foreign office attracted much attention. It generally was regarded as having been put out to anticipate complaint by the United States in various detentions of American cargoes. It did not, officials noted, refer to the legal principles under which the American cargoes are being detained and purchased by the provisions of the order in council. It is this against which the American government is preparing to protest further.

VERY LITTLE REDUCTION

Of Tobacco Crop in East Carolina Bright Leaf Belt.

(Special Star Correspondence.)

Kinston, N. C., May 21.—Local tobacconists say the 1915 crop in the East Carolina bright leaf belt will be very little reduced from that of last year. The chances are that the acreage is out a little, but the "stand" is better, and the crop in the ground is generally in better condition than last year's at this time. The local warehouses will have very little increased floor space, minor repairs being the only alterations in all instances save one.

The Central warehouse, at Heritage and North streets, is a famous sales place for many years past, has been razed and a modern brick building is going up in its stead, to cost the Central's owners when completed about 30 days from now, more than $25,000.

MUST THE POLICE HORSE GO?

May Soon Be Supplanted by Sputtering Motorcycle.

(New York Evening Sun.)

The threat that the spirited and intelligent police horse must make way entirely for the sputtering motorcycle follows hard upon the announcement that the fire horse will soon be seen in streets of New York city no more. It gives an additional shock to the lover of horses, who is just beginning to reconcile himself to the sight and sound of automobile fire engines and trucks dashing past him. Must all of the romance be taken out of everyday life in obedience to the demands for more and more efficiency made by a tireless age?

Offhand it seems a bit early to mourn over the passing of the police horse. There is certain work for which he is cut out, work for which no substitute is fitted. For instance, what could be so effective in sweeping back a crowd, even a mob, as a line of traffic policemen resolutely urging their mounts against it? Certainly no line of fussy motorcycles could handle such a situation. In spite of the handicap of not being a recent invention the police horse has some usefulness yet. It is likely to be a long time before the sigh of his kind will cease thrill those who somewhere back in their lives have heard horses neigh and who detest the odor of gasoline.

MAKE YOUR OWN DYESTUFFS

Hosiery Manufacturers Say New Industry is a Necessity.

(Philadelphia Evening Ledger.)

Because Great Britain's embargo against German commerce has cut off the supply of dyestuffs to American firms, leading members of the national Association of Underwear and Hosiery Manufacturers, an organization which represents a capital of more than $50,000,000, predict that the dye industry would be transplanted ultimately to the United States. Textile manufacturers insist that America must learn to produce her own dyes.

Already a plant for the manufacture of aniline oils and saltsfi used in dying textile fabrics, is being built on a 75-acre lot at Marcus Rook. The plant is being erected for the Benzol Products Compayn, whose present plant is located in Frankford.

In Johnstown, Pa., and Hanover, Pa., plants for the manufacture of dyestuffs will shortly be constructed. For a long period the Department of Commerce in Washington has had experts traveling through various parts of the country, studying the progress and advance in the American manufacture of dyestuffs

COMBINED HEALTH EXHIBITS

North Carolina, South Carolina, Georgia and Florida.

Raleigh, N. C., May 21.—The coming meeting of the State Medical Society and State Health Officers' Association, June 14 to 17, will doubtless be the greatest in the history of the two organizations. Word has just been received that South Carolina, Georgia and Florida will co-operate with North Carolina in presenting a combined health exhibit of the several Southern states. Greensboro, Asheville and the State Board of Health will present health exhibits for this State.

The rooms of the Chamber of Commerce at Greensboro will be turned over for these exhibits for the entire week. This will give not only the doctors and health officers but the public at large an opportunity to see what North Carolina and other Southern states are doing for public health, and how it is done.
